IMPROVED ROADS
WAR SUPPLIES FOR HIGHWAYS

So Far Approximately \$150,000,000 Worth of Surplus Material Has Been Distributed.
 (Prepared by the United States Department of Agriculture.)
 Approximately \$150,000,000 worth of surplus war materials, turned over by the War Department to the Department of Agriculture, were distributed through the bureau of public roads to the various states for road-building purposes up to November 1 last.

Under the Wadsworth-Kahn bill this surplus war material is sent to the states with the sole provision that it be used only for road-building purposes. A vast accumulation of machinery, equipment, supplies and motor vehicles that was to have been used in France has thus been diverted to a useful peace-time purpose.

Included in the supplies distributed among the states are 27,198 motor vehicles, mostly trucks; 172 locomotives of various sizes; 25,000 gross tons of rails; more than 4,500,000 pounds of powder; and nearly 10,000 tons of TNT.

A compilation showing total deliveries of war material to the various states up to July 1, last, places the value of machinery, equipment and supplies so delivered at \$30,843,770; of motor vehicles, \$74,730,568; and of spare parts, at \$11,731,424. The total value of deliveries to the states up to that date was \$117,110,771. That figure did not include material to the value of approximately \$11,000,000, which was retained by the Department of Agriculture, largely for forest road

work, which is not done by the states. Also, it is believed that the states have received, in addition to the amount above mentioned, approximately \$5,000,000 worth of material shipped by the War Department from the various army camps and not reported by the states as delivered.

The value of deliveries of surplus war material for road-building purposes to the states is in detail as follows:

DIDN'T IMPRESS THE COURT
 Just a Possibility That Motorist Laid Flattery on a Little Bit Too Thick.

"Fine town you have here, judge," said the motorist who had been hailed before Squire Witherbee on the charge of exceeding the speed limit.

"Yes," said the squire. "We think so."
 "A fine, progressive little city; broad streets, attractive homes, imposing public buildings and an air of prosperity everywhere. I dare say you have an excellent school system, pure drinking water and all that sort of thing. And Constable Perkins here, who arrested me, is one of the most alert public officials I've ever seen. If I may say so, in the circumstances it's a pleasure to make the acquaintance of a man who has such keen sense of duty and to appear before a judge whose intellectual powers and integrity I could never question after one look at his honest yet kindly features."

"A fast rate piece of oratory," said the squire dryly, "but if you're quite certain you've finished I'll just slap on the fine an' adjourn cote. It's pretty close to my lunch hour an' I'm hungry."—Birmingham Age-Herald.

GENTLE TAP OF FAN FATAL
 Man Dreaming of the Days of the Guillotine Died When His Wife Touched His Neck.

Arthur MacLaughlin of Detroit is responsible for this story and was by my friend, Leo D. Brown, of the Cosmopolitan Book corporation.

"A Rene gent had, on a Saturday night, become very much absorbed in the Tale of Two Cities. Particularly was he impressed with the description of the guillotine and the misfortunates upon whose necks it descended so devastatingly. The vision pressed upon his imagination.

"Next day his wife insisted that he accompany her to church. He drowsed during an inordinately long prayer and dreamed that the guillotine was about to descend on his bent neck. Wife, upon resuming her seat when the prayer was over, noticed that her husband was asleep and still leaning forward, his head resting on his hands on the pew ahead. And so, with her fan, she tapped him lightly upon the back of the neck. Whereupon the gent fell to the ground.

Will your "Good Morning" last all day?

Easy to start from the breakfast table with zest and enthusiasm, but how easy is it to keep on? Does ambition last, or lag, as the day develops?

The afternoon "slump" is a factor to be counted upon, in business or social life. Usually, there's a reason.

Nerves whipped by tea or coffee won't keep on running, and they won't stand constant whipping.

Many a man or woman who has wished the afternoon would be as bright as the morning has simply been wishing that the nerves wouldn't have to pay the natural penalty for being whipped with the caffeine drug.

Postum gives a breakfast cup of comfort and cheer, without any penalties afterward. There's no "letting down" from Postum—no midday depression to make up for midnight weariness; no headaches; no nervous indigestion; no loss of blood pressure.

Think it over. There's full satisfaction in Postum—a cup of comfort for anybody (the children included), any time.

You can get Postum from your grocer or your water boy and probably you'll begin to have better afternoons, as so many thousands have had, so have made the change from coffee to Postum.

Postum gives more than instant coffee (in fact) because in the cup by addition of boiling water Postum gives the pleasure of being with you when you are with the milk and sugar prepared back of boiling to 212 degrees, hot or all together.
