AS CALM AS AN ELM. TERRIBLE CHINESE—BUY. EASY TO LIVE LONGER. GIRTH CONTROL.

This, as Will Rogers would say, is written on the train traveling from Washington to New York.

Millions of Americans will be glad to hear that the President, seen two hours ago, seemed in perfect health, full of energy, and amid all the Nicaragua-Mexico excitement, calm as a Vermont elm.

What appears to interest the President just now is internal improvement, projects for canals from the farms and facilities to the sea, and development of unused waters for power and irrigation, in particular development of the Colorado River.

President Coolidge speaks just so fast, and no faster. He knows every word that he is going to say before he says it. Words do not come out and surprise him, as happens with others.

You can't hit him, or choose his subject for him. And as for holding him back, when he means to go in a certain direction, why, "draw up the Leviathan with a hook" would be child's play, compared with it.

Chinese mobs are looting Christian churches. Too bad, and it fills us with horror. Americans, British, French and other travelers brought home all sorts of loot from Chinese temples after the Beiping looting. But that was Chinese and only

About Your Health

Things You Should Know

Charles Chaplin, never very heavy, has lost 12 pounds since his latest worries began. The worst illness is MENTAL illness. Chaplin who has made millions happy and never made anybody unhappy, would seem to have a just complaint against fate.

The Senate rejects the Lausanne treaty, so this country remains cut off from official acquaintance with Turkey and the energetic dictator, Kemal Pasha. The treaty is rejected because it doesn't provide adequate protection for Christians, or any solution of the eternal Armenian question.

The rejection of the treaty is largely a triumph for Christians missionaries.

Twenty was the average age at which men died in the year 1650. In 1850 the average age was forty. In 1875 it was forty-five, and now it is fifty-eight.

The able Dr. Mayo supplies these figures. With the right kind of living, ten years can be added to present average, and we begin wise living at the right age. The famous Luigi Cornaro, however, given up to die after forty, lived wisely and passed 100.

American business men, Dr. Mayo says, "lack girth control." Too much fat means shorter life. The dangerous age for woman is sixteen to eighteen. The dangerous age for man is from fifty to fifty-five. At that age he becomes foolish.

Little things are important in big things. Mr. Blume, president of the Western Electric Company, tells you that telephoning across the Atlantic Ocean is made possible by a small object manufactured from Rochelle salts.

And now the British manual for Royal Air Force pilots orders them to chew gum as they come down from high altitudes. Chewing gum creates saliva, and that keeps the flier swallowing. The act of swallowing relieves pressure on the ear drums.

"Fearfully and wonderfully made" is correct.

Cats near Bakersfield California, can sympathize with Midas, who changed into gold everything he touched, and nearly starved. California's cats were cheered, then horrified, by rolling waves of migrating mice. First they ate some; then ran from them in horror. Too much, even of mice, is too much.

WINTER-DAY SUGGESTIONS.

In days, when the front door is kept closed as much as possible, and the windows are jealously guarded, when ventilation holds discomfort along with its purifying influences, I cannot help thinking of the increased liability of infection within the winter quarters of those who live in the frigid temperatures of our northern states. The out-door members of our families are abroad during the day, either from choice or necessity. Being exposed, they "pick up" colds, bronchitis, infections, throat disturbances, febrile in character, and, certainly communicable. They bring their complaints home with them. Children going to school are extremely liable to contract lung or throat diseases, by their association with groups some of whom are almost certain to be carriers of respiratory germs. Somebody in the family may be tubercular—a most serious infection.

What I am driving at is, to avoid the spread of disease in the home where we spend our evenings, or should, if we do not. I do not like to hear of colds "coming through families," and I am convinced that such misfortune can be prevented by intelligent precaution. Under no circumstances should expectorated matter be permitted to dry within the sitting-room or bed-room. The handkerchief used by a sufferer should be thrown in a vessel of water when soiled.

Then, coughs should be carefully disciplined; a hard cough will hurl bacteria ten feet. It may be deadly to sit in front of a tubercular who coughs immoderately without training for safety. It is just as easy to dispose of expectorated matter before it dries, and sickness may be prevented by kindly restriction. Try it in your home.

NEXT WEEK ABUSE OF PRIVILEGE

Headache dizziness

I HAVE headache once in a while, usually coming from constipation or rapid liver," says Mrs. T. A. Morris, of Potomac, Ark., "and the very best remedy I have found to correct this condition is Headache Dizziness. It acts quickly and surely, and it just can't be beat.

"Headache Dizziness is the very best laxative I have found. I always feel so much better after taking it. It acts with Headache Dizziness, too. For dizziness, constipation and any other stomach disorder, we find Headache Dizziness a most reliable and satisfactory family medicine.

Constipation, with an inactive liver, leads up to pain in the body and allows them to do that—develops many ailments.

Being purely vegetable and containing no harmful drugs, Headache Dizziness acts gently, helping the system get rid of impurities and preventing various sicknesses. Get a package today. Sold everywhere. 25 cents.

Sea-Island Cotton.

Practically all of the sea-island cotton is produced in the States of Georgia, Florida and South Carolina, the latter coming from the chain of islands off the Carolina coast. It is well named "sea-island" cotton, as when grown away from the coast the fiber rapidly degenerates into upland cotton unless seed grown in the islands is obtained for planting successive crops.

Save Old Arithmetic.

Some university professors are talking about getting out a new arithmetic. However, our guess is that it will bother the boys just as much to do cover how long it will take one man to build a wall 35 feet long and six feet high and 12 inches thick, if eight men can build a wall three times that size in four days. Arithmetic has always been the castor oil of school life; they may fool with it as much as they will but they'll never find a way to make it pleasant to take.

Pad-and-pencil figuring now a positive extravagance

The Dalton Million-dollar Capacity Eight Multiplies as well as adds - costs only \$100

SAY GOODBYE to pad and pencil! For now you can buy an adding and multiplying machine for \$100!—the new Dalton Eight. A machine that will do all your figuring, at a cost of less than six cents a day. Even if you only use the machine occasionally, it will pay for itself in the minutes and mistakes it saves.

YES, IT MULTIPLIES, TOO!

"insides". There do the same with any other \$100 machine. What a difference! Note its substantial construction—you can fairly SEE the quality. For this machine is, part for part, identical with the world's highest-priced bookkeeping machines—machines that sell for \$1000 and \$1500. Of course, the Dalton lasts a business lifetime!

Don't get the idea that this Dalton Eight is just another of those low-priced "adding" machines. The Dalton multiplies, too! Does it lightning fast, and easy "as rolling off a log". Same way with subtraction. Nothing to "learn" about this machine, either. No course of instruction needed. You can operate the Dalton the minute you see it. Only 10 keys—one for each numeral. Why, even a child can operate the Dalton!

TRY IT AT OUR EXPENSE!

You can buy the Dalton Eight on easy terms—\$10.00 down. But first, try it FREE. We'll put one in your store or office without charge or obligation. Use it for 10 days—do any and every kind of figuring on it. If, in that length of time, the machine doesn't sell itself to you—if, in those 10 days, you don't discover that it is far cheaper than pad-and-pencil figuring—then we won't LET you keep it. You have to be pleased. And you will be!

NO WEAR-OUT TO IT!

Take the side of the Dalton Eight and inspect its

ARE YOU LISTED HERE?

When you need the Dalton Special Eight! The new Dalton Eight makes a particularly serviceable and economical adding-calculating machine for any of the following:

- Grocers, druggists, delicatessens and general stores (for use on counter in adding sales items)
- Physicians (for keeping accounts and making monthly statements)
- Lawyers (for routine legal work involving figures)
- Housewives (for checking bills and house accounts)
- Farmers (for checking berry and produce sales)
- Ministers (for keeping track of church finances)
- Accounting Departments (as an individual desk machine for figure-workers)
- Barber shops and beauty parlors (for checking cash register receipts, income tax statements, etc.)

And hundreds of others!
