Camel

The cigarette that leads by billions

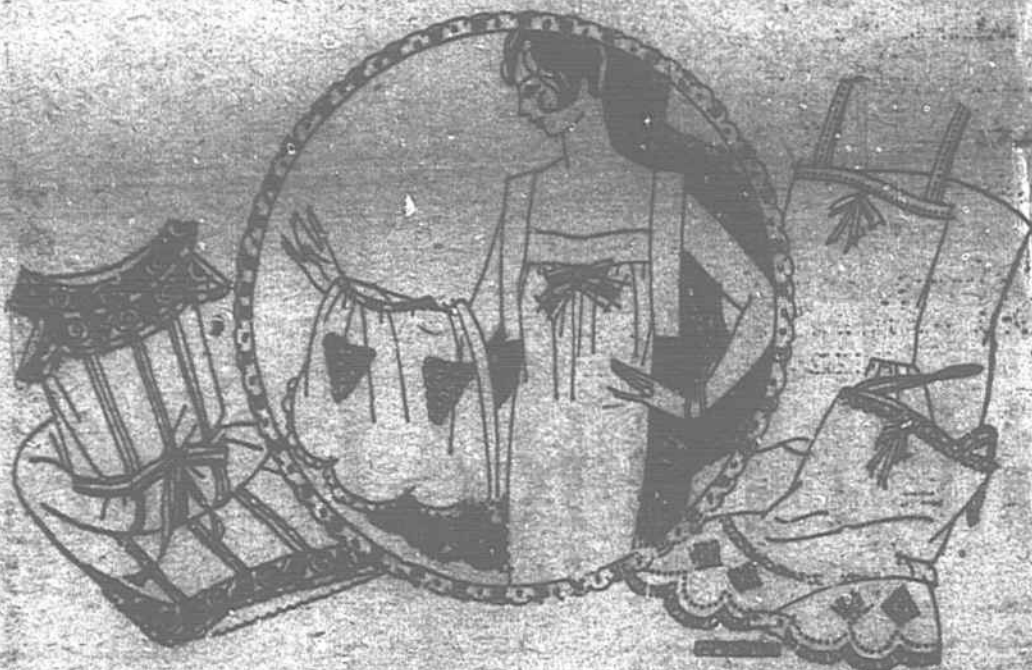

Just to state a great truth in another way — Camel is so exactly what so many smokers want that no other brand is even a close second.

If all cigarettes were as good as Camel you wouldn't hear anything about special treatments to make cigarettes good for the throat. Nothing takes the pleasure of choice tobaccos.

\$559,428,848 IN YEAR FIRE'S TOLE IN U. S.

Sweeping ahead in city and country-side alike, visiting both rich and poor, fire born of carelessness takes staggering toll every year. In 1925, the tax exacted by this ruthless destroyer was equal to \$5.00 for each number of the Nation's population.

To guard against the cause of fire is good, of course. But protection for every owner of property is essential, too. Insurance — that is real protection. You may feel your holdings are fully covered right now. But — stop in anyway — let's talk it over.

Our broad experience in writing sound policies in safe, substantial companies fits us to advise — and aid you.

You see *all* the road when you drive a Buick

The dreaded "blind spot" is gone forever! In Buick for 1928 closed car front posts are narrowed so that *all* the road, ahead of you and at the side, is clear.

And thanks to the efficiency of Fisher craftsmanship, these slim corner posts have even greater strength than the type formerly used.

See a Buick for 1928 at the nearest showroom. Get behind the wheel and prove for yourself how clearly you can see *all* the road from the driver's seat.

As usual, we are here for a little fun, a little business and a little chatter. All of us folks must have a little fun sometimes and if at any time you feel "stuck" at something that appears in our humble little publication, just remember that the next issue may contain something worse. We'll make a good joke out of it and be so glad to see that we are not very different from the rest of you Farmville people.

Ever Well from Hendersonfield, did we know that he the more of his WATER KENT Radio than any other article of furniture in his house. And he has some eight fine furniture too. He bought it from us. There are several people in the same neighborhood who have radio and are all glad to have you a demonstration at any time. Please to see us or call us.

Glen Peebles, from Macclesfield, came in Wednesday night and bought a nice Tomlinson living room suit. He stated that he had visited several stores and did not find exactly the suit he wanted at the right price until he came here. Now we have a suit for you too. Just the suit you want at the price you want to pay.

Big Bug: "Where are you going little flea?"
"Little Flea: "I'm going to the dog."

A sure way to lose control of your car—forget to make a payment.

Farmville is not the meanest town in the world. We have splendid churches, a good school, and the most composed body of teachers and preachers that we have ever had. Our town has just passed through two revivals adding between thirty-five and forty new names to the church rolls. As Paul said, Our town is no mean city.

A fifth grader was asked this question in school: "Bobby, what is water?"

"Bobby" answered quickly: "Yes, mam. It's where a cow grazes in a pasture."

We have completely sold out one or two styles of heaters. If you want a nice parlor heater, now is the time to buy. We carry a complete line of heaters, rock-stoves, ranges and oil stoves. Sure we sell the BLACK DIAMOND line of stoves and ranges, and they sell too. One of our salesmen has already sold his quota of BLACK DIAMONDS. Isn't that going good?

If you need it for the home, come to see us. We have a DELUXE SPRING in your bed-room, an ALLEN PARLOR FURNACE in your living room and a FLORENCE oil range in your kitchen. They will comfortably last for years to come. That's all.
