CONGRATULATING OUR GRADUATES

The schools of the nation are closing their doors once again and the advent of commencement brings many young men and women to the threshold of a great venture in living.

For a number of years they have pursued the paths of learning, picking up information and experience through various school years, and now, at last, they received their diplomas and step into the world of grown-ups.

They will find it vastly different from the environment in which they have been nurtured. There will be no assignment of particular tasks, success surely crowning the efforts of those who think and do well. In life, unlike in school, meritorious performance is not always crowned with success and laurels.

The high schools of Pitt county are graduating a fine crop of young men and women. Many of them will continue their education at college but some will not have that privilege. They will go forth immediately to seek their economic fortunes in business endeavor, battling the various forces that operate in the struggle for profits.

Those of our graduates who have the opportunity of attending college are fortunate only if they make use of the additional educational advantages that comes to them. Certainly the training that college life affords is worth what it costs, in time and money, but these benefits do not flow automatically into the being of the student. They must be earned.

The graduates who have no chance to continue their studies in colleges or special schools need to accept any inferiority complex in regards to their classmates who study longer. While it is not to be denied that some advantage accrues to college trained individuals, this is not conclusive in the struggle that engages adults in the fullness of their existence.

The Enterprise wishes to congratulate the students of our high schools who complete their courses this year and, at the same time, to extend felicitations to those of this county who complete their college careers. May all of them play the game of life, fairly, earning just rewards and rejoicing in their similar success of their fellowmen.

Vegetable Laxative Has Important Points

Most people want a laxative to do three things: (1) act punctually, (2) act thoroughly, (3) act gently.

Here's one that usually fills all three requirements when the easy directions are followed. It's an all-vegetable product whose principal ingredient has medical recognition as an "intestinal tonic-laxative."

That's the ingredient which enables BLACK-DRAUGHT to help tone lax bowel muscles. It is the main reason for the satisfying relief from constipation that generally follows next morning when BLACK-DRAUGHT is taken at bedtime. The millions of packages used are proof of its merit.
