**GIVE 'EM TO THE GENERAL!**

Gen. George C. Marshall, chief of staff, and the high command of the army, are to be congratulated on the fact that they have no thought of capitalizing on "the dilemma of this tragic world situation as an opportunity to aggrandize the army."

Nevertheless, the general wants nine small, streamlined divisions of 8,500 men, each in readiness for whatever purpose they may be required in the Western Hemisphere.

The general should get his nine divisions, with arms, equipment and accessories that will make them the best divisions in the world.

**FACING WORLD FACTS**

The message of the President to Congress, asking for nearly \$1,200,000,000 in cash and authorizations to hasten the strengthening of our national defense indicates the serious view that Mr. Roosevelt takes of world affairs.

The prompt indication that Congress will speedily give approval to his suggestions reflects the growing understanding of the implications a German victory will carry for this country.

While isolationists will continue to heckle the program and attempt to delay the execution of the plans it is safe to say that, at last, the vast majority of our citizens is cognizant of the threat that Hitlerism throws at civilization as we understand it.

**OUR GOLD WORTH HAVING**

The monetary gold stock of the United States has crossed the \$19,000,000,000-level and the experts are already beginning to worry about what will happen to this huge hoard if the totalitarian states reform the saving economy of the world.

Bankers and economists in this country have expressed the opinion that the gold standard cannot operate if Germany and her allies win the war and dominate the future economic set-up of the world. Their system of trading involving barter and controlled swapping, tends to eliminate the necessity of another medium of exchange.

While it is within the realm of possibility, in the event of a German victory, that gold will lose some of its importance in international trade, the disability will be temporary. In fact, we do not think that the United States need worry very much about having worthless gold stock on hand. We might worry about the possibility of losing our gold stock if this nation is ever attacked by a coalition of powers, such as Germany, Italy and Japan, after the totalitarian states have conquered Europe.

**NINE THOUSAND ARE NEEDED FOR MARINES**

Write or apply in Person to U. S. Marine station, Postoffice Building, Raleigh.

The officer in charge of the U. S. Marine Corps recruiting headquarters for North Carolina, with offices located in the post office building at Raleigh, announce that the Marine Corps has been authorized an increase of 9,000 in personnel, by Congress, bringing the total authorized strength from 25,000 to 34,000, and also that a new permanent recruiting station will be opened at the post office building in Winston-Salem on the 10th of June. He states that the 9,000 vacancies made by this increase will be filled as rapidly as possible by young men between 18 and 30 years of age, white, single, of good moral character and of sound physique. Men with previous service will be accepted up to 35 years of age.

A splendid opportunity for advancement awaits those who enlist in the Marine Corps now, as thousands of promotions will be made available, and technical training in many fields will be given to hundreds of young men who would, in civilian life, find it difficult or impossible to obtain a comparable specialized training.

Any young man who desires adventure, promotion and a chance to complete or advance their education should either write or apply in person at the U. S. Marine Corps recruiting station, Post Office Building, Raleigh. Young men who qualify and are accepted will be sent to Marine Barracks, Parris Island, S. C., for a brief period of training before being assigned to some service school, ship, foreign station, aircraft unit, navy yard or marine barracks, for duty.

**PEPPER HAS THE IDEA!**

Senator Pepper, of Florida, seems to have a good idea. He would have this country deliver immediately to Great Britain and France all available airplanes.

As we have said before, the attitude that one takes to this proposition depends upon whether one believes that war between the United States and Germany is inevitable if Hitler wins the present war.

Those who join Col. Lindbergh in thinking that there is no difference between the contending forces in Europe and that regardless of the outcome of the struggle we will be able to enjoy peacefully our democracy and possessions, naturally think Mr. Pepper has lost his reason.

Because we believe that failure to furnish the Allies with assistance now will increase the likelihood that we will have to oppose Hitler later with many of our young men, we think Mr. Pepper has a good idea. We would furnish the supplies and let other people provide the soldiers.

**DEFENDING THE U. S. IN EUROPE**

The best defense of the peace of this nation, and the surest way to safeguard our future, is to encompass the absolute defeat of Germany. This will be easiest while there are other strong nations engaged in the battle.

If we want to protect the young men of the United States from the horrors of modern warfare it is wise, now, to give unlimited assistance to the Allied cause.

If we want to develop our civilization normally, without having to subordinate liberty and life itself to the national defense, we should promptly dispatch equipment, arms, munitions and airplanes to the aid of the hard-pressed democracies.

The battle on the fields of Flanders and Northern France may not be essentially "our fight" but it may determine the course of the war will shape the course of the United States for many years to come and mean life or death to thousands of young Americans.

**State Joins Nation For Dairy Promotion**

North Carolina will join hands with other states in June to observe National Dairy Month, says John A. Arey, extension dairyman of N. C. State College.

Twenty local committees have been named to promote the consumption of Milk in their respective sections. These committees will work with hotels, cafes, drug stores, and leading food distributing agencies to bring milk and other dairy products to the public's attention.

"North Carolina could well afford to take an active part in National Dairy Month," Arey said, "since it ranks far down the list in the per capita consumption of milk. At the present time, the average Tar Heel drinks only four-tenths of a pint of milk daily. Along with this a correspondingly low consumption of butter and cheese."

Governor Clyde R. Hoey and a number of North Carolina mayors have already placed their full endorsement on the purposes and aims of National Dairy Month.

The 1939 farm value of dairy production in this State, including those products consumed on the farm, was \$32,000,000. Arey pointed out that if the consumption of milk were increased from the present available supply of 400 pounds, in which are included all dairy products, to 800 pounds, the national average, the present income from this source to North Carolina farmers would be doubled.

**NOTE OF THANKS**

We wish to express our deep appreciation to friends for their acts of kindness, for the lovely flowers and other expressions of sympathy extended to us in our bereavement.

J. A. Meadows and family.

A wheat loan program with average loan value to producers at about 64 cents a bushel has been announced by the U. S. Department of Agriculture.

**P. T. A. NOTES**

At the close of the fiscal year, was the executive Board of the Parent-Teacher Association, wish to thank each organization and each individual for their cooperation, patronage, financial and moral support.

We are delighted to report that the Lunch Room—our last but most important project, ran on a paying basis—including the commodities given by the county. We are leaving \$50.00 worth of canned goods stored in the cabinets for the coming school year. All of our donations are left in the bank to help with the canning project this summer; the remainder to go on electric refrigerator for the lunch room. We served 6529 free and exchange lunches and 2964 paid lunches from February 9 to May 29.

Of the \$86.25 membership dues collected, 15c of each 25c was sent to the National Congress of Parent-Teachers to pay our state and national dues.

Through the Parent-Teacher Association, Public school music was this year begun in the lower grades.

During the school year 1939-40 we have had a total of \$372.34 which includes expenditures for the lunch room; state and national dues; and public school music. We have spent \$722.69—leaving a balance of \$149.65, plus the \$50.00 worth of canned goods.

Signed: Mrs. Claude Barrett,  
President, P. T. A.

**RESOLUTION**

WHEREAS in the recent death of Mr. J. M. Hobgood of Farmville, N. C., the Eastern Carolina Warehouse Association lost one of its most valued members, and the individual members of the Association one of its most loyal and respected associates:

THEREFORE be it resolved by the Eastern Carolina Warehouse Association assembled in its regular Annual Meeting in Rocky Mount, N. C., on the 16th day of May, 1940, that in the death of Mr. J. M. Hobgood, we have lost a valued member and friend, and that the sympathy of this Association be extended to his family and that a copy of this Resolution be published in the Press and spread upon the permanent records of this Association.
