ber of points and contact made with German troops," said the announcement.

"Casualties were inflicted and some enemy dead fell into our hands. Our forces suffered no casualties."

But the British Press Association described the exploit as signalling "a new phase of aggressive action," and the British news agency Reuters declared that it demonstrated the Germans' "vast responsibilities" in trying to hold a great coastline running from the Scandinavian peninsula to the Spanish frontier.

"At various points along this huge line—notably in the English channel ports—existing defensive establishments and harbor works were wrecked by the Allies before the Germans seized them," Reuters said.

While the raid was discussed widely as the forerunner to exploits designed to make invasion of England a costly business, Frenchmen unwilling to give up the fight against Germany were active here.

General Charles De Gaulle, the French military leader who vainly opposed the armistice, announced that he was forming a fighting legion which would be aided by the "cream" of the French fleet.

Way "Build-up" Helps Will Interest Women

The cause of a woman's periodic suffering from headache, irritability, cramp-like pain, may be functional dysmenorrhea due to malnutrition, a condition that is often helped by CARDUI.

Principal way CARDUI helps is by stimulating appetite and the flow of gastric juices. Thus it may aid digestion; help build up a woman's strength, energy and nerve-force; so increase physical resistance to periodic discomfort.
