Second Class Mail Matter at the

act of March 3rd, 1879.

Millions of Americans will be sure that their families have a good Christmas dinner.

We know some little boys whose daddies are planning a good time with toy train sets.

It looks like Mexico is about to succumb to the Good Neighbor policy or is it the United States?

Well, about this time of the year, it might be a good idea for Santa Claus to operate on a budget.

Any solicitor for a charity cause can recognize the look that comes into the eyes of some prospects.

The only class feeling, to which wealthy persons object, is organized and conscious of political power.

The people who preach class hatred would lose their jobs if there were no justification for class hatred.

The idea that the United States has given Great Britain vital assistance is true but the stuff has been paid for.

Isn't it about time to read another book? Many good ones have been published since Swiss Family Robinson.

The year 1940 is drawing to a close if there is anything that you must do this year, you had better get started on the task.

Our experience leads us to believe that everybody is willing for the government to spend money on pet propositions.

Regardless of how the war in Europe comes out the United States might as well be ready to maintain control of oceanic trade routes.

FIGHTING TUBERCULOSIS

In the battle against tuberculosis, every citizen can do some front-line fighting, without risk to life or limb, by buying Christmas Seals or Health Bonds.

It is hardly necessary for The Enterprise to advise its readers to support the efforts of those who lead the attack. Just the same, for what it may be worth, we remind you to join hands with your fellow-man in this struggle against disease.

FOR CHRISTMAS CHARITY

The Christmas season is at hand. Business men in Farmville and Pitt County expect the biggest buying in years.

It is well to remember that, despite the good fortunes that many enjoy, there are hundreds of boys and girls who will have cheerless Christmas unless the good people of this community make it their business to do something about it.

For many years there have been splendid exhibitions of the Christmas spirit in Farmville and we are sure that the same generosity will be evident in 1940. However, let us not take too much for granted. Every citizen must assume some of the responsibility unless what is left to others is overlooked by all.

When the call comes to you, do not overlook the need for your contribution and by helping financially participate in this worthy undertaking. Those who do so will, no doubt, enjoy their own Christmas season more than ever.

THE PRICE WE PAY FOR SPEED

The 1940 death toll from automobile accidents will show the figures for 1939 when 28,000 individuals were killed in traffic accidents.

This is a high price for a nation to pay for speed but there is no indication that the public thinks the price is too high. Nearly every automobile takes it for granted that the accidents will take care of it and the government will make good on it.

We have called attention to the persons killed in highway accidents and we are not inclined to do so again unless we have not the slightest doubt that it will appear in the statistics for next year.

CIGARETTES

The consumption of cigarettes in 1939 established an all-time high of 172,500,000,000, up 5 percent from the 163,900,000,000 of 1938, despite increase state sales taxes.

Never expect more than a legitimate return for your time, or your money, and you won't have to testify against the promoter of a get-rich-quick scheme.

The money that you have is worth what it can buy, that's why experts are closely watching increases in prices.

STRAWBERRY
University of Tennessee horticulturists have developed a new variety of strawberry, the "Tennessee Supreme," which is claimed to be superior to all present varieties as a frozen food product.

VEGETABLES
An early severe frost in the deep South in mid-November materially reduced the prospects for fall planted tender vegetables, reports the U. S. Bureau of Agricultural Economics.

Regardless of which day you observed as Thanksgiving Day, you had much to be thankful for in 1940.

Way "Build-up" Helps Will Interest Women

The cause of a woman's periodic suffering from headaches, irritability, cramp-like pain, may be physical symptoms due to imbalance, a condition that is often helped by CARDUI.

Principal way CARDUI helps is by stimulating appetite and the flow of your blood. Thus it may aid digestion; help build up a woman's strength, energy and nerve-fibers to increase physical resistance to periodic discomfort.

It also helps reduce periodic discomfort for many who take it a few days before and during their menstrual cycle. Your confidence in CARDUI is shared by 15,000,000 women.
