Washington Notes

CITY HOMES
 Foreclosures on city homes in 1940 reached the lowest level since 1935, according to the Federal Home Loan Bank Board. There were 75,210 foreclosures on non-farm property, compared with 100,961 in 1939.

GOLD
 The monetary gold stock of the United States increased \$121,163,000 in January, to \$22,115,708,000.

BRIDGES
 "New evidence" is the explanation for the deportation proceedings instituted against Harry R. Bridges, West Coast C. I. O. leader, by the Department of Justice. Similar proceedings were begun by the Secretary of Labor Perkins two years ago. Since that time, the Bureau of Immigration and Naturalization has

BOMBERS
 Four-motored, long-range bombers are now being delivered to the British by a California aircraft plant which is beginning delivery three months behind schedule. The bombers are said to be able to carry four tons of explosives from England to almost any sector of belligerent Europe and return, non-stop. The planes will be flown from California to the East Coast, where they will refuel for the hop across the Atlantic to Great Britain.

ARMY
 The Army is about 183,000 men short of its expected goal at this time, although 187,000 soldiers are under training. By next June, the Army expects to have 1,418,000, according to the present schedule. Preliminary expansion plans involve the present study of sites for additional camps and cantonments if it becomes advisable to increase the strength. It is noted that arms production facilities, including powder, ammunition, aircraft, chemical and other supplies, were designed to meet the requirements of the force contemplated up to 2,000,000 men.

CARGO SHIPS
 The first of the 200 emergency ocean cargo ships to be constructed by the Maritime Commission in private shipyards, will be ready for service before the end of the year. The program covers seven yards, which, in full operation, will have fifty-one building ways, some of them able to take care of two to four ships at the same time. The cost of the ways and facilities approved by the Commission is \$33,374,000. Fifty of the ships will be built at a Baltimore plant, 31 at Portland and Los Angeles, 25 at New Orleans, Houston and Wilmington and 13 at Mobile.

been transferred from the Labor to the Justice Department.

DEBT
 The national debt of the United States will be limited to \$50,000,000,000, according to new legislation, and this ceiling will be sufficient, according to Administration spokesmen until June 30th, 1942, at least. The main purpose of present legislation is to provide for such increases as the national defense program and the Lend-Lease bill will require. No one knows how much the total amount will be.

SCIENTIFIC EXCHANGE
 To promote the exchange of scientific information between this country and Great Britain, an American commission, headed by Dr. James C. Conant, president of Harvard University, will be located in England where it will study the newly developed war equipment, including devices to curb night bombing. First-hand observation of English scientific secrets is considered important in connection with problems of national defense and it is presumed that the exchange will be mutually beneficial to both countries. Dr. Conant will remain in England about a month but a permanent commission will be set up.

PROBLEMS
 Speaking recently over the radio, Secretary of Labor Frances Perkins suggested that defense needs might limit production of certain types of goods and other domestic supplies. She also suggested that difficulties of transportation may arise in and around the cantonments and the new factories and stressed the problems of health, housing and entertainment and morale, which require attention.

WPA
 One-fourth of the WPA workers are now engaged on national de-

Vegetable Laxative
Makes Happy Friends

Here's a laxative that usually acts thoroughly as harsher ones but is a gentle persuader for intestines when used this way: A quarter to a half-teaspoonful of spicy, aromatic BLACK-DRAUGHT on your tongue tonight; a drink of water. There's usually time for a good night's rest, with a gentle, thorough action next morning relieving constipation's headaches, biliousness, sour stomach, bad breath.

BLACK-DRAUGHT is a splendid combination of vegetable ingredients, chief of which is an "intestinal tonic-laxative" that helps impart tone to lazy bowel muscles. It's economical. 25 to 40 doses; 25c.

Uncle Natchel says.

WE BUY DE NATCHEL KIND, 'CAUSE NATCHEL THINGS IS BEST

Right you are, Uncle Natchel—Chilean Nitrate of Soda is "natchel" and it's a wise plan to rely on natural things. Natural Chilean Nitrate is good for every crop you grow. Its quick-acting nitrate, plus the many "vitamin elements" which it contains, help to insure better quality and larger yield.

Use it in mixed fertilizer before planting, and as top dressing or side-dressing. And use it regularly—that's the way to get full benefit of its fertilizing and soil-improving qualities.

Presenting the biggest and most complete line of LOW-PRICED cars in Pontiac History

Metropolitan "Torpedo" Six Four-Door Sedan, \$921* (white sidewall tires extra)

Addition of New Metropolitan "Torpedo" Sedan increases De Luxe Series to 6 Models with prices as low as \$828*

WITH THE INTRODUCTION of its glamorous new Metropolitan "Torpedo" Sedan, Pontiac rounds out the most complete line of low-priced cars in its entire history—six big, handsome De Luxe models with bodies by Fisher, every one available with either a six-cylinder or an eight-cylinder engine.

The new Metropolitan Sedan takes its place among the motor car style hits of all time. Patterned after a higher-priced and sensationally successful Pontiac model, it combines unusual rear-compartment spaciousness with the privacy possible only in 4-door, 4-window design.

In addition to the new Metropolitan, Pontiac's De Luxe series now includes the 4-door 6-window Sedan; the Sedan Coupe; the 2-door Sedan; the Business Coupe and the very smart Convertible Sedan Coupe.

All six of these lowest-priced Pontiacs offer the sound, simplified engineering principles which have won Pontiac such an excellent reputation for riding comfort, handling ease and long, trouble-free service. And all of them are exceptionally economical to own and drive.

Plan to see the Metropolitan Sedan—as well as the Pontiac "Torpedos"—which are offered in a wide range of prices. And remember... if you can afford any new car, you can afford a Pontiac.
