U.S. Police Steps to Stop

Orders Visus With From Aliens Wit Close Relatives In European Nations: Rebuff Due Nazi Protest on Consulate Ch

Washington, June 18,-The United States tonight imposed drastic restrictions on European impration in a far-reaching move directed at aliens who become either willing or unwilling agents for Germany through fear of torture of their kin in their homelands.

The move-aimed at curbing subversive activities—was revealed by the State Department.

It ordered all U. S. diplomats and consular officials "in certain countries in Europe" presumably those occupied by Germany-to withhold American visas from "aliens who have close relatives still residing in those countries."

Thousands Affected. Thousands of emigrees from France, Belgium, Holland, Luxembourg. Poland, Czechoslovakia, and other German-conquered states will

be affected. The order did not mention Germany, nor her Axis partner Italy, by name, but it is known that German pressure on relatives of aliens going to other countries has been largely responsible for operation of the world-wide German espionage machine.

The department acted soon after Germany had formally protested against President Roosevelt's closure of all Nazi consular and propaganda agencies in the United States. The protest is expected to be rejected

Today's action, the department said, was taken "in view of the known to the department where persons leaving certain countries in Europe have been permited to leave only after entering into an obligation to act as agent in the United States for the governments controling the countries from which they desired to depart."

It was said that although each in dividual application for a visa is to be determined on its own merits, this country deemed it advisable to withhold visas in all cases in which the applicant has children, parents, spouse, brothers, or sisters still remaining in such territory.
