GOVERNMENT FINANCE.

DEFICIT WILL GROW. For readers interested in the details of governmental expenditures, Secretary Morgenthau reports that for the fiscal year ending June 30, 1941, the Government spent \$12,710,-000,000 and collected \$7,607,000,000, leaving a net deficit of \$55,103,000,-

The expenditures included \$6,048,-000,000 for defense, which was about four and a half billion dollars more that the amount spent in 1940. The usually buying them by gifts and sum was divided between the War Department, \$3,635,000,000; Navy, \$2,217,000,000; Selective Service, W. E. Lang. \$131,000,000; Emergency ship construction, \$12,000,000; Lend-Lease \$21,000.000; and Defense Housing, \$42,000,000.

The deficit was less than It is amusing to notice how many amount spent on national defense, ceipts. This condition will not exist in the present fiscal year, however, What the people of this country because defense expenditures will be Mr. and Mrs. Arthur Gay. need to understand now is that you doubled, and, consequently, the net can't wait to see the enemy before deficit for the present year will be getting ready to prevent him form greatly in excess of the current fig- week end with his parents, Mr. and hulls, and other farm waste ma-

Control For 2 Cotton Insects Is Suggested

A way to kill "two bugs with one stone" is suggested to cotton growers by J. O. Rowell, Extension entomologist of N. C. State College. He has placed in the hands of county farm agents a copy of a publication which describes control of boll weevils and cotton aphids with a single poison

The new publication is U. S. Depaartment of Agriculture Leflet No. E-538, "Dusting for Boll Weevil and Cotton Aphid Control." The leaflet describes a Derris-Calcium Arsenate mixture which Government scientists have found effective for the control of the two destructive cotton insects.

Rowell said that county agents will be glad to discuss cotton insect control with farmers, and are in a position to obtain additional copies of the new Federal publication. They also have available copies of the N. C. State College Extension Folder No. 54, "Boll Weevil Control."

In reporting on boll weevil conditions, Rowell said that infestation is very serious this season in spotted areas. "I have made a rather extensive survey of the boll weevil situation in the cotton counties," the entomologist said, "and I find that weevil infestations are very severe in some fields, and negligible in oth-

"For instance," he continued, "one cotton field in an area will reveal a very high percentage of damaged squares while another field a hundred yards away appears to have no damaged squares. Such a condition makes it important that the cotton grower keep a close check on weevil infestation. Accurate infestation counts will aid the grower in determining whether to dust his entire cotton crop or employ the 'spot dust-

Rowell recommends that dusting begin when 10 percent of the developing squares show boll weevil egg

BOND

Q. What happens if I suddenly need the money I put into a De-

fense Savings Bond? A. You can cash your Bond at any time, after 60 days, for the full amount paid, plus any interest due

Q. Do many Bond owners cash their Bonds?

A. No. People want to help arm America against all attacks. In many cases, people are putting every ent they can spare into Defense Bonds and Stamps. Some are doing this by asking employers or banks to withhold part of their salaries in order to buy these Bonds or Stamps

NOTE. - To purchase Defense Bonds and Stamps, go to the hearest post office or bank, or write for information to the Treasurer of the United States, Washington, D. C.

Farmville Tobacco Market Report

By R. A. FIELDS, Sales Supervisor

 Reports from growers in this section indicate a good crop of bright smoking leaf. Although excessive rains have done some damage, and tobacco is ripening very fast, farmers have the situation well in hand and are making some mighty good cures. The crop will be some lighter than first expected.
