Splendid Programs Given At Meetings of the Week

Varied Groups Hold Enjoyable Meetings Here

Mrs. S. A. Garris presided over the September meeting of the American Legion Auxiliary, at which the president and Mrs. M. V. Horton were gracious hostesses. During the business session, Mrs. Louise Harris read notes of appreciation from the Auxiliary's boys at Oteen for their monthly cash treat. Music, the subject of study for the month, was developed by Mrs. B. R. Fields, program leader, Mrs. H. N. Howard and Miss Lilla Gaynor. Mrs. Howard very vividly portrayed the life of Padewski, calling special attention to the part he played in the first World War and his affection for Woodrow Wilson.

Mrs. Fields gave some interesting incidents connected with the musician's appearances in Raleigh and his visits with Mr. and Mrs. Roy MacMillan. Mrs. Fields concluded by reading Mrs. MacMillan's account of his funeral in New York, which she attended.

Miss Gaynor rendered Padewski's Minuet in G with fine interpretation, and as an encore number played Waltz by Strauss.

A refreshing drink and hors d'oeuvres were served during a delightful social hour.

MADE NAVY EDITOR

The suggestion of Secretary of the Navy Knox, G. A. House of the Farmville Enterprise has been made Navy Editor, to help the Navy in giving ambitious young men information about the opportunities the "Two-Ocean Navy" offers them for technical training and advancement as they serve their country in its emergency.

According to an announcement made public in Washington, a limited number of additional men between the ages of 17 and 50 will be given a chance, by enlistment in the Navy or Naval Reserve, to get to the top, with big pay, in jobs which by their aptitude and as a result of examination they show themselves fitted, from among nearly 50 different trades and vocations. These include such callings as aviation machinist, dental technician, photographer, diesel engineer, radio technician, electrician, welder, storekeeper, and baker. Enlisted men may also qualify for commissions as officers.

Beginning this week, the Navy plans for a limited time to accept non-qualified men for training. These men will be sent to one of four Naval Training Stations and may have a chance to go to a Navy Trade School even before assignment to the fleet. During the period they will be given regular Navy pay and the Navy's free schooling is valued at hundreds of dollars.

"Never in the history of the United States has there been greater opportunity for loyal young Americans to serve their country and build their futures than right now," said Secretary Knox.

In outlining the many advantages offered by enlistment in the United States Navy, the Navy Editor of The Enterprise said, "It is possible for a bright young man to increase his pay seven times during his first enlistment and he can earn as much as \$128 a month. This monthly figure is actually worth much more when it is remembered that the man has few living expenses and is provided with the finest of medical and dental care.

"You have all your food and lodging, and also your original outfit of clothing provided by Uncle Sam free. In addition there are free sports and entertainment—even to the latest Hollywood pictures. On top of this you get free travel and adventure in colorful places—a thing few civilians can afford.

"When you consider the size of this country and the fact that the Navy will select only 15,000 applicants a month from many times that number throughout the United States, the quotation, 'Many are called but few are chosen,' will apply to local young men interested.

"Navy men are a 'hand-picked' lot. Candidates must be men of more than average intelligence and ambition, of fine moral character and must have the written recommendation of at least two local townspeople."

As Navy Editor, Mr. Rouse has just received from Washington a supply of free illustrated booklets for all men interested and, in addition, will welcome inquiries from young men who wish to look into the new and greater opportunities the Navy now offers for training for future civilian careers as they serve their country now in its emergency.

BIRD NOTES

At the Bird Club meeting, Saturday, Billy Batton read an article on the Mocking Bird. Billy, described the Mocking Bird as a solitary fellow except during the nesting season. In September, these birds are often seen in small flocks of six or eight, feeding together and roosting in the same tree. The outburst of glorious singing that comes during this month after the long period of silence in August is often due to the young birds that are just reaching maturity. When cold weather comes, the group breaks up and each bird finds his own roost and territory. Any infringement on this spot is resented and fought off. He does not even allow other mockers to visit his domain according to Billy's information.

Claude Tyson told of the habits of the Whippoorwill. At dusk this bird begins its entertainment and continues its call far into the night even being heard at times until dawn. It derives its name from its call, which it repeats over and over. Its eggs are creamy white with spots of lavender and are laid upon the ground on leaves in heavily wooded sections. It lives largely on flying insects, its capacious mouth enabling it to capture them on the wing.

James Bennett, who presided over the meeting, extended a cordial welcome to Don Walston, a guest at this time.
