THANKSGIVING THOUGHTS

The people of Farmville will soon be observing Thanksgiving Day, in accordance with American custom and while the world outlook is unhappy there are many reasons for us to be thankful to the Creator we worship.

Life is precious to every individual and as a beginning for Thanksgiving thoughts, let us be grateful for existence itself. There may be higher forms of life somewhere in a boundless universe but human beings should appreciate the opportunity to grow spiritually on a mundane globe.

Next to life we would be thankful for the freedom that the Almighty has decreed for men and women. We live our lives under no compulsion but our own willingness to attempt to approach the Divine Spirit in relationship with other struggling human beings. So, while the shadow of sorrow blots out peace, we should appreciate our spiritual freedom, a gift beyond comparison.

Men and women of today should be thankful for the upward struggle for us a world of industry and intelligence, where all enjoy the fruits of the ages of the past. Born as helpless infants we inherit the greatness of former residents of the earth and we profit by their experiences, good and bad. It is a magnificent legacy that the former years have bequeathed to those alive now and it should be accepted with thanks.

The slowly developed civilization of the race is expressed in material progress, which comes to us without cost and often is enjoyed without a careless thought as to the source and the strength of our way of life. Strongly challenged, as it is today, our conception of man's place in nature belongs to the ages and shall endure if the men and women of the present are courageous in faith and intelligent in action.

On Thanksgiving Day Reverent Americans look with faith to God, giving testimony to their belief in a Supreme Being, interested in the welfare of men and development of saints. It is a religious day of deep emotion, too often disregarded for lesser interests as individuals seek escape from every day trials. Unfortunately, the churches of the land sometimes take the lead in the "black out" of Thanksgiving Day as a religious occasion and, for the convenience of the unconcerned, provide no service for the devoutly minded.

We do not expect every resident of this community to be worship-minded on Thanksgiving Day but we believe that there are many citizens anxious to participate in religious services on the day set apart by Presidential proclamation as an occasion to return thanks to the Divine Being. It is impossible to expect all people to agree upon any phase of religious thought but it is essential that those who desire a Thanksgiving service should find one available on Thanksgiving Day.

KNOW, AND BE, YOURSELF

The essence of education is to "know yourself" and the sine qua non of social cooperation is to "be yourself."

The individual who attempts to attain these goals is fairly certain to

be a worthwhile citizen of any community. To know oneself is to understand human nature and be sincere and unaffected in modern society requires unusual character. To young boys and girls of Pitt County, interested in the problems of life, we suggest serious consideration of these goals. They are also worthy of the attention of older persons, especially those who are under the impression that they have arrived somewhere in the search for whatever they seek in life.

"HORSES" BURN

Leavenworth, Kan. — Notified that "some horses are on fire at Broadway and Spruce Streets," firemen sped to the scene. Surely enough, some horses were burning, but they were "saw horses."

GOT IT ALL

Carroll, Neb. — Two weeks after burglars stole almost \$500 worth of whiskey and cigarettes from Arthur Cook's store, they returned and stole \$350 worth of liquor, all that was left after the first haul.

As we see it the problem for the United States to decide is whether we prefer to furnish planes and tanks and ships and guns without the men to operate them.
