Published weekly and entered as Second Class Mail Matter at the Postoffice at Farmville, N. C., under act of March 3rd, 1879.

"They say" has ruined many lives.

Have you bought your supply of Christmas Seals yet?

Most anybody can find fault anywhere anyhow.

Faith and patience are great assets and wonderful helps when you need them.

Education is not to be confused with going to college—not in these days.

The empty honors that the world bestows do not carry beyond the grave.

Correct this sentence: "We want you to be chairman—you won't have much to do."

Everybody assails "an-American ideas," but very few people try to define them.

Our Own Dictionary: Self-control—something we tell our children they should have.

Cheerfulness, it is rumored, is largely a matter of one's income being above one's out-go.

The Bible still outsells any book published, and, if you want to know, is still being widely read.

If the residents of Farmville don't care to trade at home, nobody else will bother about it.

No mother-in-law thinks that the mother-in-law jokes were aimed at her kind of mother-in-law.

Now that college football is almost over, the gamblers will have to find something else to bet on.

People who know nothing about a major problem can give you the answer without waiting to think.

Successful business does not depend upon the elimination of clean competition anywhere, at any time.

Compliments are paying investments, but they must be true and sincere if they are to have the desired effect.

Ordinary advice: If you really are very good in your line, keep your mouth shut—somebody will find it out in time.

Some people think that what this country really needs is some workers who are willing to do a day's work for a day's pay.

The guy who said charity begins at home evidently never went on an expedition to raise funds by public subscription.

A sick man who refuses to take the medicine prescribed by his physician should not blame the doctor if he doesn't get well.

GIVE COURTESY FOR CHRISTMAS

In August of this year President Roosevelt called on the National Safety Council to lead a defense emergency safety campaign to curb the growing menace of traffic deaths.

The action of the President was prompted by a 23 per cent increase in traffic deaths last August over August, 1940.

The increase in the traffic toll is due mainly to the fact that the American people are travelling more this year than they did last year.

In September of this year the American people travelled 13 per cent more than they did in the previous September.

In October, motor vehicles were responsible for the deaths of 4,050 persons. This is about 400 more than were killed in October, 1940, but it is the smallest per cent rise of any month this year over a corresponding month in 1940.

The National Safety Council has reason to be proud of the progress that it is making in stemming the rising tide of accidents in the United States.

The Council is also undertaking a special Christmas safety drive, and 130 cooperating organizations are helping to make this drive a success.

DEFENSE ITEM

Here is an item that may mean something about defense: One day recently a plane factory in Texas delivered fifty all-metal training planes to the government. One year before the field upon which the plant stands was growing cotton. Structural steel was unloaded late in November, 1940, and the first plane was assembled April 7th.

There are hundreds of similar plants in the United States busy today turning out weapons for the defense of democracy. We hear of only a few but when the full story of our rearmament program becomes known, Americans will be proud of their country.

"WITHOUT LIBERTY, THE BRAIN IS A DUNGEON AND THE SOUL A CONVICT."

(By Homer Spell, Durham High School)

Most Americans have a fear. For that matter, anywhere on the earth one will be apt to find some people who fear one thing or another. To this I say don't lose faith in any fellow American if he doubts the strength of America and thinks that Hitler is invincible.

With the biggest factories in the world, the greatest amount of raw materials, over ninety per cent of all the world's gold supply and a people made up of superior strength of mind and body, we are a nation that Hitler can't laugh off and will have trouble fighting off.

The People of the European nations lacked those few fundamentals that we possess. In Germany, when their labor leaders were shut up, when the Weimer Constitution was torn up, the people shuddered and backed away, frightened.

When their liberties were taken away, their brains went dull, quit action and shrunk to naught. When their churches were burned and the preachers hanged or persecuted, they didn't fight. They are sorry now.

We Americans are different. We have what it takes to combat the evil. We have our liberty; our brains are alive, clear, our souls are warm to the needy, but cold to the aggressor. It's something to preserve and something the rest of the world craves with eager, outstretched arms: freedom, independence and strength.

Americans! Believe in America; fight for her; live for her, and if needed, die for her, so that in the future as in the past, Old Glory will shine in the wake of the world.

Whatever comes never lose faith in America and we'll win this fight.

WHO KNOWS?

- 1. What city is called the "spigot of the Russian oil barrel?"
2. What are the three largest cities in Continental Europe?
3. By what other name is Dutch Guiana known?
4. Dutch Guiana is a U. S. Army Base. Is Iceland one?
5. On what board was John R. Steelman recently appointed?
6. When did U. S. merchant marine production reach the one-ship-a-day goal?
7. How many cities are there in Dutch Guiana?
8. What two teams meet in the Rose Bowl on January 1, 1942?
9. Is South America within 2,000 miles of Africa?
10. What great musical composer died in December, one hundred and fifty years ago?
(See The Answers on Page 6.)

In view of the courageous stand made by the Russians the people of the world might as well revise their opinion of the Soviet.
