State College Hints For Farm Homemakers

By Ruth Current,
N. C. State College.

For painting old linoleum—areas in front of the stove or sink, that receive the most wear, can easily be repaired by painting in a new pattern instead of painting the whole floor.

Mark off large flagstone shapes on the floor, putting large ones in the areas that may have to be repainted. Paint as you wish, choosing the colors that will harmonize with the kitchen.

Points to check when buying pans and kettles, say house management specialists are: (1) Balance—The pan and its handle should be well-balanced so that the pan stands steadily even when empty. Too heavy a handle makes a heavy pan that is awkward to use and may cause dangerous spills of hot water or food.

(2) Surface—The fewer the cracks at joints, the more durable and easy to clean it will be.

(3) Bottom—A flat bottom helps keep a pan steady and means faster heating and more economical use of fuel. Pans for use on electric stoves should have dull-finished bottoms to save fuel. A dull finish absorbs heat in contrast to a shiny finish which reflects it.

(4) Sides—Straight sides are more economical of heat and also of space on the stove than flaring sides.

(5) Handles—Handles of pans and covers should be comfortable to grasp and insulated against heat.

(6) Cover—A close-fitting cover is essential for many cooking processes, so buying a pan and cover together is often worth the extra money.

(7) Thickness—Thin, lightweight aluminum is less expensive and less durable than the heavy metal. Thin ware is easily dented, bent and scorches easier than heavy wear. Heavy wear is economical.

Government price supports and heavy demand are expected to keep dairy products high during the first half of 1946.

Scientific agricultural experimentation is now on a hemispheric basis to produce supplies which the U. S. needs but does not grow.

STATE COLLEGE ANSWERS TIMELY FARM QUESTIONS

QUESTION: Should young pines planted for timber be pruned?

ANSWER: If set with recommended spacings, they will usually prune themselves by shading out the lower limbs and allowing trunks to grow clean saving lengths suitable for timber. Trees spaced apart and pruned of limbs are more subject to damage from wind and blast than trees which grow more thickly and are allowed to prune themselves.

QUESTION: Give a score for grading butter.

ANSWER: A satisfactory butter score card would include: flavor, 35 points; body, 25; color, 15; salt, 10; and package, 5. Good quality butter should have a pleasing taste and be free of objectionable odors or flavors which might originate from dirt, acid milk, feed flavors, weeds, onions, or other foreign matter. It should be of uniform color, free from white specks or streaks of yellow, should be worked just enough to thoroughly mix the salt and should not appear ally.

QUESTION: At what temperature should milk be churned?

ANSWER: At a temperature between 66 and 70 degrees Fahrenheit. Get a good dairy thermometer and find out by testing it yourself what churning temperature is best to use.

Stock peanut prices will be supported at 90 per cent of parity as of July 15, 1946, the beginning of the marketing year.

The U. S. Department will resume publication of its yearbook in 1947, after discontinuance during war years.

NOTICE!

NORTH CAROLINA, Pitt County, IN THE SUPERIOR COURT

Mae Bell Smith

— vs —

Hurlis Smith

The defendant Hurlis Smith will take notice that an action as above have been commenced in the Superior Court of Pitt County, North Carolina, to obtain a divorce from the defendant on the grounds of two years separation; and the said defendant will further take notice that he is required to appear at the office of the Clerk of the Superior Court of Pitt County in the courthouse in Greenville, North Carolina, on the 31st day of January, 1946, and answer or demur to the complaint in said action, or the plaintiff will apply to the court for the relief demanded in the complaint.

This 15th day of December, 1945.

D. T. HOUSE, Jr.,
Clerk Superior Court
Pitt County.

Wm. J. Bundy,
Attorney for Plaintiff. (D-21-4wks)

NOTICE!

Ordinance Authorizing Withdrawal of \$10,000 From the Capital Reserve Fund of the Town of Farmville For the Purchase of Equipment.

BE IT ORDAINED by the Board of Commissioners of the Town of Farmville, North Carolina:

Section 1. That pursuant to the Municipal Capital Reserve Act of 1943, withdrawal from the capital reserve fund of the Town of Farmville of the amount of \$10,000 for necessary expenses and for the purpose of purchasing street maintenance equipment and sanitary equipment for said Town is hereby authorized.

Sec. 2. That the source of moneys in said capital reserve fund for said withdrawal is unappropriated surplus revenues and unencumbered balances, as follows, viz:

Receipts from revenues derived from sources other than ad valorem taxes, specifically revenues derived from the operation of the water and electric light systems of the Town, which are not pledged or otherwise applicable by law to the payment of existing debt.

Sec. 3. That this ordinance shall take effect thirty days after its first publication unless in the meantime a petition for its submission to the voters is filed under said Act, and in such event it shall take effect when approved by the voters of the Town at an election as provided in said Act.

The foregoing ordinance was passed on the 11th day of January, 1946 and was first published on the 18th day of January, 1946. Any action or proceeding questioning the validity of said ordinance must be commenced within thirty days after its first publication.

R. A. JOYNER,
TOWN CLERK.
