Mrs. W. I. Shackleford visited Mrs. Apple Flanagan in Farmville, Saturday.

Miss Elizabeth Shirley has returned to Brevard College after a visit with her parents, Mr. and Mrs. Frank Shirley.

**Club Meets**

Mrs. Paul Craft was hostess to the Woman's Club at her home Wednesday afternoon. The president, Mrs. Albert Bundy, presided over the business session.

During the social hour that followed a contest was enjoyed. Mrs. Truett Lang, being the winner, was presented the prize.

The hostess served a sweet course.

precautions, citrus juice will lose little of its most valuable vitamin, even if stored for 24 hours.

Besides serving as sweets, oranges and tangerines have possibilities as sweeteners. Home economists suggest, for example: In orange gelatin dessert, if orange sections are used in addition to orange juice, sugar called for may be reduced a third or even a half. And for those who like a sweet salad, orange bits or slices mixed slaw or combined with grated carrot provide the touch of sweetness without rationed sugar.

**STATE COLLEGE ANSWERS TIMELY FARM QUESTIONS**

**QUESTION:** Is it safe to use regular caps and fuses with the type of dynamite (50 per cent nitro-glycerin) now being used for ditch blasting in the state?

**ANSWER:** It is definitely unsafe to use regular caps and fuses with this type of explosive. A blasting machine not only is a time-saver but also is the safest method of setting off charges.

**QUESTION:** What is the best method of transplanting Nandias?

**ANSWER:** Nandias, best transplanted sometime during February or early March, should be lifted with as much dirt as possible, care being taken not to injure the mother plant. If plants are no more than 10 to 15 inches high at the time of transplanting, no pruning should be necessary. If, however, the plants are two to three feet high and only a small quantity of dirt may be lifted with them, they should be pruned to a height of 12 to 15 inches.

**QUESTION:** What are the more likely markets for North Carolina black walnut timber?

**ANSWER:** Logs in carload lots may usually be sold to the Carolina Veneer Company of High Point, the Palaski Veneer Company of Palaski, Va., the Redmond Lumber Company of Richmond, Va., or the Wood Mosaic Company of Louisville, Ky. If you have but a small quantity of timber, it is suggested that it be sawed into lumber and used locally.

The production of Grade-A milk and "choice" lambs is on the upgrade in the state, Extension Service observers report.

**ADMINISTRATOR'S NOTICE TO CREDITORS**

Having qualified as administrator of the Estate of Mrs. Alice Flanagan, deceased, late of Pitt County, N. C., this is to notify all persons having claims against the estate of the said deceased to exhibit them to the undersigned at Farmville, North Carolina, on or before the 31st day of December, 1946, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate settlement. This 4th day of December, 1945.

Robert L. Flanagan and Allagone F. Ferrell, Administrators of Mrs. Alice Flanagan Estate. L-19-46

**NOTICE OF SUMMONS BY PUBLICATION**

NORTH CAROLINA, Pitt County In The Superior Court.

MAGGIE MAE LEWIS

**GLOSTER LEWIS**

The defendant, Gloster Lewis, will take notice that an action entitled as above has been commenced in the Superior Court of Pitt County, North Carolina, for an absolute divorce on the grounds of two years' separation; and that said defendant will further take notice that he is required to appear at the office of the Clerk of the Superior Court of Pitt County, in the courthouse in Greenville, North Carolina, on the 16th day of February, 1946, and answer or demur to the complaint in said action, or the plaintiff will apply to the court for the relief demanded in the complaint. This January 21, 1946.

E. F. TUCKER, Assistant Clerk Superior Court, R. T. Martin, Atty. J-25-4wks

**State College Hints For Farm Homemakers**

By Ruth Current, N. C. State College.

Citrus fruits rolling into market from this year's good crop bring wealth of vitamin C, nutritionally speaking. Since sugar is still tightly rationed, oranges and tangerines rate a welcome for the help they offer in the "something sweet" line.

While most people know that orange juice is a high-powered drink for vitamin C, nutritionists say that all of the familiar citrus fruits are bountiful sources of this vitamin. A half-glass (4 ounces) of orange or grapefruit juice will go far toward supplying a day's needs of vitamin C. So will half a grapefruit, or a whole orange, or a couple of tangerines or lemons.

Because pulp, as well as juice, contains vitamin C, there is vitamin thrift in serving juice unstrained, and even higher vitamin economy in eating citrus fruit simply halved, sliced, or sectioned.

So destructive are heat and air to vitamin C in cut or juiced fruit that the vitamin-thrifty homemaker takes special care to keep them under control. To this end, the nutritionists advise cutting or slicing citrus fruit as near as possible to serving time.

If breakfast citrus juice is squeezed the night before as a time saver, keep it cold and covered, remembering that the less air space there is between juice and container top, the better for vitamin C. With these
