State College Answers Timely Farm Questions

Ques. What about the nitroger ituation for next year?

Ans: According to the latest reports, the total U. S. Supply of nitrogen will be just about the same for the 1946-47 season as for the past year, if production goals are met. There will probably be less sulphate of ammonia, slightly more nitrogen ium nitrate. Imports of nitrogen from Chile will be about the same, while imports from Canada will be smaller. Last year the nitrogen industry, in spite of many difficulties, exceeded for U. S. agriculture and its possesthe American Plant Food Council.
