Cut of \$4,500,000,000 Approved by Vote of 51 to 33, with Body Refusing To Take Funds Away From Armed Forces: Taft Predicts Compro-

jecting any major cuts for the Army and Navy, the Senate voted 51 to 38 today to slash \$4,500,000,000 off President Truman's \$37,500,000,000

budget for the year starting July 1. This compares with a \$6,000,000,-000 cut already approved by the House. The House action had led to cries that the Army and Navy might be crippled at a critical juncture in world affairs.

Chairman Knutson (R-Minn) of the House Ways and Means Committee told a reporter after the Senate vote that the cutback of only \$4,500,000,-000 would throw overboard his bill for a 20 per cent across-the-board slash in individual income taxes, re ducing the figure to 10 per cent. Promises Fight He quickly added, however, that

"the House will never accept" the Senate figure. Still pending in the Senate 8.8

Knutson spoke was a proposal by Senator Knowland (R-Calif) to require that \$3,000,000,000 of any government surplus be applied to the national debt.

Senator Taft (R-Ohio) proposed to cut Knowland's debt retirement figure to \$1,000,000,000, leaving room for a \$3,500,000,000 tax reduction if revenues come in as expected. Senator Green (R-R I) went the

other way with a proposed amend-ment to apply all of the budget saving to the debt.

All those proposals remained to be voted on when the Senate quit for the night.

Taft Sees Compromise. As for the ceiling on spending, Chairman Taft (R-Ohio) of the Senate Republican Policy Committee predicted to a reporter that a Senate-House compromising committee eventually will arrive at a figure of \$5,000,000,000 or slightly more as the overall pledge for reducing expenditures.

This would put Congress on record
