Burnette-Rouse VFW Post To Give Play

Arrangements have been made by the Burnette-Rouse Post, Veterans of Foreign Wars, for the presentation of a new musical comedy, "Coronapoppin'" May 1 and 2 in the high school auditorium.

This novelty comedy is based on the "merry-go-round" life of the Judkins family. Elviry Judkins rules the roost in the Judkins household, including her husband, Henry, and her daughter, Sue.

Her heart is set on Sas marrying the Squire who is town lawyer and sheriff all in one but Sue is determined that she'll marry Bob Sandrock, the boy down the way.

Pa Judkins has an idea which he thinks will make him the boss of his home. He decides to bottle perfume from Skunk Creek water. Bob agrees that the water does smell "purty" but they don't have money enough to get started. Aunt Bessie, the matriarch of the household, could help but she is too upset by the loss of her pet bear cub and the fact that she can't see a thing without her glasses, ordered from a mail order house.

Finally, Paw decides to borrow the money Elviry has been keeping as treasurer of the Community Club.

It's a grand idea—but suddenly, the creek water does not smell like perfume any more. In fact it smells terrible.

Maw is furious when she finds out that Paw and Bob have used the money for a bottling machine. Paw lands in the dog house and Maw becomes more and more determined that Sue must marry the Squire so

the money can be replaced. But, all's well that ends well—and it does end well. "Coronapoppin'" is a fast-moving, clean entertainment, guaranteed to produce two solid hours of laughs, tunes and novelties. It is the show of the year and hundreds of organizations throughout the country are enthusiastic over this hit comedy.

Announces Details of \$20,000,000 Price Reductions

Details of the recently announced International Harvester policy of making price reductions to save users of our products approximately \$20,000,000 a year have now been worked out.

We have reduced prices on 163 models. These cover 12 basic models of farm tractors, 123 basic models of farm machines, 16 basic models of industrial tractors and engines, and 12 models of motor trucks, as well as certain motor truck attachments. The new lower prices are effective as of March 10, 1947.

These reductions were made not because of any decline in demand, but because we believe nothing is more important to this country than to lower the prices of the goods people buy.

While prices have not been changed on all products, we have made reductions wherever possible, in the amounts possible. Prices of many of our most popular products have been substantially lowered.

Altogether, more than half of the company's customers will be benefited by the reductions, which range from 1% to 23.8% and from \$2.50 to \$300 per item, based on list prices, F.O.B. Chicago.

Since the people have demanded that the government withdraw from price control in peacetime, the responsibility to keep prices in check is back where it should be—in the hands of business and industry. The business outlook makes it possible for us to move toward the goal of lower prices, and we have felt a duty to act as promptly as possible.

Our ability to maintain these lower prices will depend on the supply and price of materials we buy from others and on uninterrupted production at reasonable wage levels.

The prices listed here carry out our announced policy that "Any price is too high if it can be reduced."
