

### 'American Informal Furniture' Will Present Amazing New Ideas In Furniture Designs

That tomorrow that was just around the corner, is here, with the presentation of a complete post-war edition of furniture for today's home, American Informal Furniture by Tomlinson.

T. Eli Joyner, Jr., manager of the Farmville Furniture Company, hopes to have some of this new furniture on display at an early date.

Not just a few pieces, not just a new trick or two, but a completely developed and integrated series of groupings for living room, dining room, bed room. And it isn't a warm-

ed over version of pre-war thinking and styling, but a fresh, new approach to the business and the pleasure of living in our time.

This furniture combines the charm of the past with the simplicity of the present, with every piece planned primarily for the way we live today. The way of living expressed in this new furniture is a story in three chapters.

First—Our leisure living, as a counterbalance to our fast-paced business life, is easy, relaxing and informal. Homes will be the expression of freedom, just as much as politics, literature and music. This is the key thought from which American Informal gets its name and its inspiration.

Second—Our indoor living looks outdoors through glass walls and the outdoors seem to carry its color and character within. Two sunlit woods, fruit wood with a special painted finish and mahogany with a butternut finish, mix beautifully in the same room with citron yellows and raspberries, and other colors in fabrics that cover the complementary chairs and sofas.

Third—The days when most life spans were spent in the same town, within the same four walls, give way to the time of the modern nomads. The new furniture is flexible and adaptable. Buying furniture for the future means choosing furniture that can expand or contract its scheme—from city to country, from apartment to house or vice versa.

Here is an example of this flexibility and usefulness: A coffee table that can expand or contract. Three tables together for a table long enough to serve a whole supper by the fireside, or it can be broken up into its three separate tables.

Work saving is an important part of that flexibility. Gone with the war, perhaps never to return, is the domestic service that will concern itself with endless fetching and carrying, dusting and brushing. The way we live today puts a premium on short cuts. American Informal is simple to care for, saves steps because of its convenient interior fixings and lends a helping hand.

"He must live in a very small apartment."  
 "Why do you say that?"  
 "Well, didn't you notice that his dog wags its tail up and down, instead of sideways?"

### PERSONAL ITEMS

## Don't Delay . . . Mr. Tobacco Farmer

Have your tanks filled at once. Every indication points to an oil shortage during the curing season and we advise all farmers who cure their tobacco with oil to take heed.

Distributors have been urged by the oil industry to fill all oil tanks at the earliest possible date, thereby increasing their storage for future use.

Let us fill your tanks, today!
