**WEEKLY TOBACCO REPORT**

South Carolina and Border North Carolina flue-cured tobacco prices during the third week were very erratic, with the gains and losses about equally divided. The majority of grades in leaf and primings were down from \$1 to \$4 per hundred while most lugs, smoking leaf and nondescript showed advances of 75c to \$4 when compared with the second week of sales. Cutters were fairly steady. Most grade averages strengthened during the first of the week, but weakened toward the latter part.

The volume of sales was considerably heavier this week than last. Block sales prevailed on several markets Thursday and Friday. It is expected that practically all markets will be blocked next week and will continue for several days, as most growers have finished harvesting and are now preparing their tobacco for marketing. Gross sales for the week amounted to 30,447,178 pounds at an average of \$46.14. This average is only 10c below last week's average of \$46.24. Season sales have reached 53,787,968 pounds at an average of \$46.43.

The quality of offerings has been lower. There were more common and low qualities and less fine and choice. Bulk was made up principally of low to fine lugs, low to good leaf and cutters. Leaf grades increased sharply during the week, with a corresponding decrease in lugs. However, lugs continued to predominate by a small margin, followed by leaf and cutters. Deliveries to the Flue-Cured Stabilization Corporation this week were estimated at around 10 per cent. This was only 2 per cent below last week's estimate of 12 per cent. Most grades sold at or above advance prices.

**How women and girls may get wanted relief from functional periodic pain**

Cardui, many women say, has brought relief from the painful cramps and nervous strains of functional periodic pain. It's a relief that's almost immediate. Cardui stimulates appetite, aids digestion, and thus helps build strength. It's the "miraculous" relief that's been given to many women who have suffered from functional periodic pain. Try it!
