

**MADE NEW PLANS AND
NEW IMPROVEMENTS
TO THE POSTOFFICE**

Three Thousand Dollars Spent
On New Physical
Equipment

RECEIPTS 14 PER
CENT GREATER 1921

(By E. A. Hopkins, Postmaster)

As we journey along through the year, we are constantly looking for ways to improve what we have done in the past, and at that time we spent of 1921.

**1922 Has Been Good
to Goldsboro**

**More Power to
the New Year**

At the advent of the New Year we naturally forward to greater achievements and we are facing the future with more assurance than we did at the closing of 1922. Goldsboro has made notable advance in the past twelve months and citizens

order to see what progress we have made in our particular line of endeavor. My administration of the Post Office at Goldsboro, is just a few days more than a year old. It is my purpose to state briefly some of the things that have been accomplished and others that have been attempted and for which we are still striving.

At the risk of being uninteresting I propose to make at least a partial list of these different items:

Things accomplished follow:

A new flag pole erected; concrete curbing built; useless trees cut down and post office lot drained; windows, doors, and locks throughout the building readjusted; window rights replaced; plastering repaired; the heating system completely overhauled.

Many general services to be held, she has been active in the Red Cross wherever it is found.

The personnel of the post office building. The personnel of the post office building. The personnel of the post office building.

Additional lock boxes, more clerks city carriers, restoration of the program of the Red Cross, extending carrier service the county parts of the city, and the enlargement of the post office building.

Since I have been post master, I have sent numerous letters and made three drawings in an effort to secure additional lock boxes. The first of these drawings was sent to the department a year ago today. During all this time I have been endeavoring to secure additional clerks and carriers for the post office. Months ago before any bills were introduced, I prepared a floor plan of an enlarged post office and it is to this that the newspapers have referred from time to time when mention has been made of enlarging the postoffice at Goldsboro.

The receipts of the office have been 14 per cent greater than for the year 1921.

At my request a special inspector has been sent to Goldsboro for the purpose of looking into our needs in the matter of additional clerks, city carriers, lock boxes, and the enlargement of the building. The inspector has already been here and will be here again and he will make a thorough investigation. He is one of our own folks, being from one of the adjoining counties of this state.

It is my desire to call attention just at this time to the absolute necessity for construction of proper sidewalk walks throughout the city. This is essential in order to get the carrier service extended. The department will not extend carrier service unless these sidewalk walks are built. A dirt sidewalk properly constructed will be sufficient. It is my understanding that this is an act of Congress which the Department would have no right to change.

During the entire year I have had the moral support of the Chamber of Commerce and the Merchants Association of Goldsboro. We are still cooperating in proper ways to bring to a successful

conclusion the things for which we are striving. I have also had the loyal support and cooperation of the entire post office force. Our motto is Service.

WHAT OUR ASSOCIATION HAS DONE

1. Answered lies with facts. They said we would not make a second payment. We answer by making it.
2. There will be a third payment. There is more to come. It takes time to deliver millions of pounds of tobacco, collect for it and make out thousands of records and checks.
3. We have done all the things the auction crowd said we could not do: We have organized, financed and handled our own tobacco. We have sold to all the large American companies at satisfactory prices.
4. Our Association has the best grading system ever used in the industry. We are collecting damages from men who sold themselves as well as their tobacco to the auction crowd.

JUSTICE AND FAIR PRICES EVERY YEAR—
