Since writing the above it has occurred to me that some would so con-struct my former article that it would nut apply to the general subject of Sabbath desceration and be ready to say "Oh, he did not want us to go because it was to a Rossan Catholic church." I want you to understand distinctly that it is just as wrong to take such a trip even to Olasy, Pisgal, or to Long Creek Baptist church. God determines all acts by the hidden mo-

tive of the heart.

First, an houset heart, a sincere motive of have to God, a desire to worship the Gol of my love that I may do good and get good. Whenever this in its purity and sincerity is found it is refer to make these sounds. It is safe to go, when these weents ornnot be net in town.

But whenever and wherever you go simply as an outing on Sunday when self only is known then it is wrong for self only is known then it is wrong for you to go, it is a desceration of the Sabhath—a sin against God. I hope no one has been so narrow as to narrow now me down simply to the Roman Catholics, for I intended that my first bosiness. All parties nwing the old article should be taken on general principles.

The spring s ession of Mecklenburg Presbytery last night adjourned, to meet in the First Presbyterian church on May 15th. The next stated meeting will be held at Rutherfordton on Tuceday, October 1.

At the afternoon session, the report of the committee on narrative was received and adopted, and a copy of it was ordered to be forwarded to the General Assembly. It covers reports from 66 churches in the Presbytery. It reports that the attendance on public worship has been good, and "that lic worship has been good, and "that while in but few of our churches there while in but few of our churches there have been marked outpourings of the Holy Spirit, yet that His constant presence has been manifested by a steady growth in grace among Church members, and that it is witnessed in many churches by additions on profession of faith, notably that in two churches over 25 have been added to the membership without any special services. In most churches, while the need of the increased diligence in Sablath school work, Bible instruction, etc., is admitted, the zeal in this direction is noticeable.
