

**WORKERS FROM RUSSIA  
LECTURE AT CAMP GREENE**

Mr. and Mrs. Van Riper, representing the Y. M. C. A. and Y. W. C. A., respectively, who have just returned from the war fronts, are lecturing to the soldier boys this week at Camp Greene. Mr. Van Riper was on the eastern front in Russia and his wife was in France. According to the government regulations they could not go to the same countries and it is very interesting to hear what they have to say.

The "Y" huts have been well filled

the past few nights with soldiers who have heard the story of the Russian and his downfall and the one great spirit that has given life to France and the allies. In the former it has come from within, while in the latter the source is from without—from the great American nation. Mr. Van Riper remained at the front as long as he was permitted and until forced out by the Germans. The main point of his talks, besides describing the awful turmoil of country, is that Russia did a great thing for the allies by holding as well as doing their part in fighting the brunt of the fight for two years,

but now he says they can never help the Germans much nor hurt the allies as they are completely disorganized and helpless.

Mrs. Van Riper has been in France and told of the first landing of the American troops, the appearance of Paris today and she also told the boys not to expect too much but that they would find the French people the finest in the world and the most grateful. She gives figures as to how this country is feeding the allies, building railroads, docks and other enterprises, ing the Hun. She explains the use of American money in France and the

great work the Y. M. C. A. and Y. W. C. A. are doing for all the boys.

Mr. Van Riper had several souvenirs, including helmets, gas masks and other articles used in the warfare on the front which seem to be of great interest to the boys of Camp Greene.

If you haven't written a letter home, send a copy of Trench and Camp. It is a paper for the entire camp, is free and makes an effort to print all the news about camp that is going in every quarter.

# Gillette SAFETY RAZOR

Regulation Khaki twill—nickel-plated "Bulldog" Razor; indestructible Trench Mirror fitted in pocket in lid; Shaving Brush and Stick Gillette Shaving Soap in nickel-plated Holders; two Blade Boxes; 12 double-edged Gillette Blades (24 Shaving Edges). \$7

*The men who know the value of every minute use the Gillette*

Maybe a civilian can afford to loaf around a half hour or more listening for "next." But the men in khaki or navy blue know the value of the Gillette—the razor for service everywhere. Five or ten minutes for the "once over" Gillette shave—and a man is clean, braced up, right back on the job.

Have you seen the new Gillette sets specially made for the fighting man? Two of them are illustrated on this page. They were designed by members of the Gillette Organization in the Service—men who know what the fighting man is up against.

Simple and compact, fit the pack, the pocket or the ditty box. No strops or hones to clutter up the kit. Blades always sharp, always ready.

No Stopping—No Honing. When a man wants new Blades he can get them in any Post Exchange, Ship's Canteen, or Y. M. C. A. Hut, here in America or overseas.

Our Paris Office carries stocks—is constantly supplying the American Expeditionary Forces. Gillette Safety Razors and Blades on sale everywhere in France, England, Italy, and the Eastern battle fronts.

**Here's the Way to Get 100% Efficiency Out of Your Gillette.**

Try this when you shave tomorrow morning. Lather the beard thoroughly and rub well in—that's essential with any shave.

Put in a new blade and screw the handle down tight. If you want a specially close shave, unscrew the handle a part turn.

Hold the razor naturally and easily, and tilt the handle so you can just feel the blade engage the beard.

Then shave with short slanting strokes. It doesn't require any brute force to shave with a Gillette—the razor does the work.
