- M. H. Whitfield, Chicago, Ill., Labor battalion.
- J. M. Mayson, Fort Sam Houston, Labor battalion.
- R. W. Hartearn, Camp Alexander, Labor battalion.
- J. J. Hill, Camp Meade, Labor battalion.

EQUATION CLASS AT REMOUNT STATION

Ever hear of an equation class when you went to school? Well, the writer had not until yesterday, and had the nerve to ask an army officer who knew what the term meant. The writer was informed that if he would go to the remount station he would soon find out but got to ask the men there what the word meant. When he arrived he didn't see any water and knew it had nothing to do with swimming and he looked around further and up in the air and saw that there was no flying connected with it and then he looked down the green stretch and saw a line-up of horses mounted with American soldiers coming down the pike like a bunch of Comanche Indians and they were hurdling and doing every other thing in horsemanship—that was called equation.

Every officer in the camp is taking the course any way and those who can ride two days in succession say they enjoy it and others who are used to the drill are enthused. They are being directed by Captain Hagan who is an artist in the line of equation and before long is going to develop some fancy horseback riders right in Camp Greene.

CRACK REMOUNT TEAM IS BEATEN

North Carolina Football Team Is Too Much for Camp Greene Boys.

The crack football team from the Remount station was defeated Saturday by North Carolina at Chapel Hill by the score of 52 to 13. This is the first game in which a Camp Greene team has figured this year but it won't be the last as several teams are in the process of being well made and good games are surely coming. The Remount team has been practicing under direction of Lieutenant Marrin and Coach Abernathy and they are ready for all comers. It is believed that the team from the record taking division of the headquarters staff under the guidance of Captain E. Davis will be about the best in the camp when it comes to a show down and they are expecting a game next Saturday with the Remount team.

In the game Saturday the first half resulted in a score of 40 to 0 and not until some of the second team men were put in line by the university did the soldiers score. The line-up for the Saturday game was as follows for the Remount: Rourke, left end; Tighe, left tackle; Scott, left guard; Haas, center; King, right guard; McNabb, right tackle; Cannon, right end; Stone, quarterback; Hays, left halfback; Cowgill, right halfback; Captain Blaine, fullback. This team is being aided by Captain Breme-man of the Remount who is an old football star and much interested in the success of his team.

ASSISTANT CAMP ADJUTANT.
Lieutenant Herman Nowitsky is the new assistant to the camp adjutant, Major Baumeister.

QUARANTINE AT CAMP GREENE LIFTED MONDAY

Base Hospital Is Also Making a Splendid Showing in Fight Against Almost Extinct Disease.

Monday the quarantine which has been on Camp Greene for over six weeks was lifted and joy unmeasurable quantity fills the soldier's heart. Three weeks ago there were over 350 influenza cases admitted to the base hospital and Friday and Saturday of last week only three cases for two days were admitted and not a single death occurred on those two days.

Camp officials are highly gratified at the results obtained and the splendid and rapid way in which the camp has recovered from the squall.

Business will be as usual now; entertainments for the soldiers are being planned and given in the welfare buildings and Liberty theater and in general the camp appears to be a real live city again.

BEST IN THE LONG RUN

Why Teeth Exempted Men From Draft

BECAUSE soldiers 150 years ago must bite off the ends of cartridges, sound teeth was a major physical test for the army.

Though metal cartridges removed the original importance of teeth, the tradition of the teeth test prevailed until the present war. A dentist now makes a man available for duty.

In like manner, a tradition that color affected the toughness of rubber prevailed until Goodrich research and common sense proved the fallacy, first by White Tread rubber and later Black Tread, now the color of—

FAIR TREATMENT

GOODRICH SERVICE VALUE TIRES

But black, or any other color, is only coincident to the strength of Goodrich Tires.

Color, and that practical non-skid, the cross-barred safety tread, are but steps toward the SUPREME VALUE Goodrich demands of tires—SERVICE VALUE.

Goodrich skill and sincerity builds SERVICE VALUE into SILVERTOWN CORDS and BLACK SAFETY TREADS.

Millions of miles of road testing by Goodrich Test Car Fleets prove it is there. Demand them.
