**CHEVROLET CONTINUES ITS ADVERTISING**

Today's "Forgotten Man" could be the automobile dealer. Have you noticed the lack of newspaper advertising by automobile manufacturers? By and large dealers have been left to "paddle their own canoe". This is true in

almost every case but one. The exception is Chevrolet. Month in and month out, Chevrolet has supported its local dealers with a regular schedule of newspaper advertising. It strikes us that this is grand co-operation and intelligently handled too.

**WORK OR FIGHT RULE IS ISSUED IN CAMDEN**

Last week's issue of the News-Journal carried the resolution passed by the recent General Assembly of North Carolina making it mandatory for officers to enforce the vagrancy laws. As we said last week, there is too much loafing and idleness in this town among white and colored. There is a cry all over the country about delinquent youth. Put these boys and girls, white and colored to work and there will be less of that. The following article from Camden, S. C., is worth reading and their action is worth copying. Camden, S. C., April 9.—Orders have been issued by Mayor F. N. McCorkle to the police department that the city vagrancy law will be enforced to the letter. This is virtually a work or fight edict and unless an individual can show that he is gainfully employed he will be placed under arrest and eventually be

assigned to some essential work necessary to the war effort. This may be in some industrial unit or on a farm.

In conformity with a request from Washington and concurred in by the governor of South Carolina, the city and county authorities are preparing regulations which will give broader powers on the control of the vagrancy problem than does the present law.

It was pointed out that within a short time the drive against vagrancy will mean an invasion of pool halls and other places where the idle congregate. This does not mean that the recreation of employed persons will be interfered with but it does mean that every able bodied man is gainfully employed.
