Payroll Savings Buys Comfort For Your Fighting Relatives

Not all of your payroll savings and other War Bond purchases are used for tanks, planes and gunpowder. A part of your investment goes for the comfort of your father, brother, son or friend.

Put your war bond buying through your payroll savings plan on a family basis to do the most effective job in providing for the care and safety of your men in the armed forces. Figure it out for yourself how much beyond 10 per cent of the aggregate income of your family you can put into war bonds above the cost of the necessities of life.

Remember a single \$18.75 war bond will buy for a fighting soldier on the front: Two cotton undershirts at 44 cents; two pairs of cotton shorts at 76 cents; two pairs of cotton socks at 34 cents; one pair of shoes at \$4.31; a cotton khaki shirt at \$4.64; pair twill trousers at

\$4.16; one web waist belt at 33 cents; two cotton neckties at 44 cents; 2 khaki caps at \$1.25 and one twill jacket at \$2.16. Total \$18.75.

An \$18.75 war bond should make a marine comfortable for the night with a 75-cent mattress at \$1.33; two blankets at \$1.54; a pillow at 97 cents and two pillow cases at 87 cents. Total \$18.59.

Or he could be provided with a rubber poncho at \$2.00; a hammock with its lining at \$1.00; a rifle cartridge belt at \$1.00; a marine corps pack containing of haversack, knapsack and suspenders at \$5.16; a canteen and its cover at \$1.55. Total \$18.69.

These of you who worry about the comfort of your boy in service can help insure his comfort by buying war bonds. And 14 years from now you'll take back \$25 for every \$18.75 you put in.

BRIDGE CLUB ENTERTAINED BY MRS. GORE

Mrs. Arthur D. Gore was hostess to her bridge club and several additional guests last Thursday afternoon. During the course of the game refreshing fruit drinks were served and after the game a dessert course was very much enjoyed. Mrs. Marshall Thomas made high score and was awarded the club prize while Mrs. Donald Davis received the visitor's prize. In a bingo contest, Mrs. R. B. Lewis was winner.

CARD OF THANKS

Mrs. J. B. McRacken and family of Stonewall Township take this means of thanking their neighbors and friends for the kindness and sympathy shown them at the time of the death of J. B. McRacken, husband and father.

This County To Be Featured In Greyhound Advertisement

This county's part in the nation's war effort is being given its full share of prominence in the first of a series of newspaper advertisements to be published in this paper by the Greyhound bus lines. Local and state activities as well as the part local Greyhound people and service play in them will be featured in all of these advertisements. Some highly interesting facts about the state's great highway system will be the basis of one advertisement with special emphasis on what these roads have meant in the past, and will mean in the future to this county and its neighbors. The newspapers of our state, its counties and weeklies will come in for their share of attention as will the splendid grade schools, secondary schools and colleges of this state. Our pride in the rich farmlands of this area and the state's leading industries will be expressed in still other advertisements. Greyhound executives state that they have chosen to "point with pride" to local achievements and institutions because Greyhound feels itself to be a part of the community. Its people live here, their children go to school here, and a great proportion of the bus service Greyhound provides in this region is definitely local in nature—a great share of this service being to war plants, farming centers and neighboring communities.

Anti-Freeze Should Be Conserved

Increased war demands for anti-freeze chemicals, necessitating government regulations prohibiting the sale of "ethylene-glycol" type, commonly known as "permanent" anti-freeze for ordinary use, are cited by Ed Hedner, Chevrolet national director of service, as an urgent reason why car and truck users should take special pains to conserve this fluid. In line with their Victory Service League pledge to "Save the Wheels that Serve America," Chevrolet dealers are cooperating fully with car and truck owners in conserving anti-freeze solutions, not only to save critical chemicals but also to assure future cold weather operation of motor vehicles. By means of special factory-applied tests and inspections dealers are able to determine accurately whether or not the solution is worth draining and saving for future use. If the solution is to be left in the cooling system during the summer months, dealers recommend that the system be cleaned and reverse flushed; that air passages in the radiator core be free of obstruction; that hose connections and water pump be inspected for possible leaks; that the fan belt be examined for wear and that cylinder head bolts be tightened to prevent seepage of gases into the coolant, resulting in an acid condition that would accelerate rust and corrosion. Owners having a suitable place in which to store anti-freeze removed from their vehicles are advised to keep it in glass or earthenware containers.

Up Your Savings

WELL PAY YOU BACK TOJO if it takes our last dime!

BUY MORE WAR BONDS

There will be American justice for the savages of Tokyo but our trial and punishment of Tojo and his criminals will cost blood, sweat, toil and tears and money. You can supply the money by upping your war bond buying through the payroll savings plan. Figure it out yourself and see where the money is coming from. How much does it cost you and your family to live each month? How much money is coming in from all members of your family? Put the extra money into war bonds, every penny of it. Let 10 per cent be only the starting point for figuring your allotment.

U. S. Treasury Department

...and Greyhound is part of its fighting power

Hoke County is America in cross-section—fighting mad and fighting hard, doing its level best to back up our troops across the seas with the home-front cooperation they must have.

All of us in Hoke County are putting the drive that counts behind the particular jobs that are ours to do—whether it's sending our men to the colors—building their guns and ships and planes—raising their food and clothes and smokes—buying bonds—or moving manpower. Hoke County men and women, loyal Greyhound employees, are busy keeping our buses rolling to help keep our war effort in high gear. They're driving the buses—keeping them mechanically fit—conserving vital materials—giving wartime travel information—handling baggage.

As our share in this country's joint war program, Greyhound is taking our local boys to induction centers—and bringing them back home from training camps on well-earned leaves. We are transporting our neighbors to their vital jobs in war plants and on farms. We are keeping essential travel on the move—linking up this country with the other busy communities of the South Atlantic states, where so much of the Nation's war activity is centered. Hoke County is in this fight to win—we didn't start the fight but we're going to finish it.
