Sgt. and Mrs. Robert Gammon announce the birth of a daughter, Charlotte Sinclair, Alamance General Hospital, Burlington, N. C., on August 5. Mrs. Gammon was formerly Miss Jean McFadyen.

Mr. and Mrs. Ralph Chapman and daughter expect to leave this week end for a visit with friends and relatives in New Jersey.

Mrs. Chandler Roberts and children visited her sister, Mrs. T. K. Cobb in Smithfield last week.

### With the Army People

(Contributed.)

Lt. and Mrs. David (Blue) Blough left Friday for Natchez, Miss., where Sara will visit her family. Lt. Blough will continue to California where he will take some kind of an Ordnance course (further his army education, in other words). All of the Blough's friends will miss them very much, especially Blue's "David was a shepherd boy" and Sara's "Clickety-clickety-click." Mrs. Jack Knight who lived at the Benton Thomas's when the 2nd Armored was here, came back to Raeford Sunday to spend three days as the Thomas's guest. Mrs. Knight promises to re-

turn in the spring and bring little 4 month old Gladys with her. Capt. Grover Robinson was all smiles when he walked into the Hoke Drug Store Friday night and it wasn't because he was purchasing baby bottles but because he had just been granted a very unexpected 10 day leave of absence. So, he and Mrs. Robinson (Fauntleroy) and the little "pride of their eyes" were homeward bound to Pensacola, Fla., on Saturday.

Raymond Maness (Capt.) arrived home in Georgetown, S. C. from Africa last Thursday and thinks his little daughter, whom he saw for the first time, is absolutely tops. The Manesses are Texas bound this Sunday. We all wish they could stop by Raeford on the way. Poor Jessie Hadley and her little son, Jessie just couldn't get her eye out of the way of that screw driver and suffered a scratched eyeball. Later little Craig decided there were so many pretty articles in the medicine chest that he'd just sample about 8 of the pain-killer tablets in the nice little blue box. We are happy to report that both patients are doing nicely. Lt. and Mrs. Fanning who have been living in "Miss Flora" McLaughlin's rear apartment, left for Fort Jackson, Columbia, S. C. last Friday and as the Fannings moved out Lt. and Mrs. Douglass moved in (Rapid transit). The Douglasses have been staying with the Chandler Roberts for some time. Capt. and Mrs. Thomas Braim, of the windy city, Chicago, have had a room at the H. C. McLaughlin's for the past week. Capt. Braim is stationed at Pope Field with the 60th Wing.

Mrs. Burt Nash says it's a most unhappy plight to have a flat tire and then make the discovery that you have failed to have the spare checked and find it is flat too, but she also says the front seat of the car isn't the worst place in the world to sleep away the wee sma' hours of the morning. Just to make you feel better; Vernon Suddath writes that the temperature out there at Fort Sill has been 112 in the shade (and there isn't any shade to speak of). Whew! That's hot!

Mrs. J. C. Howell of Lumberton is visiting at the home of her daughter, Mrs. Milton Campbell.

### Repair Navy Plane Despite Waves, Flies To Hawaii

Washington, July 30.—Forced down at sea, a naval air transport plane rode 20-foot waves for 42 hours until repairs were made, then flew on to Honolulu under its own power.

The Navy, releasing the story today, said the plane was operated for the transport service by Pan American Airways, thus disclosing for the first time that Pan American is engaged in transport flights in the Pacific.

The plane, with a crew of ten and eight passengers, was forced down several hundred miles from Pearl Harbor. All but two of those aboard became seasick, and the First Officer had to make the repairs because the Engineering Officers were too ill to take over.

Piloted by Capt. John H. Hamilton, San Francisco, the plane developed motor trouble while en route from an unnamed Pacific island to Honolulu. The port motor began blazing, but the flames were stopped before the ship landed on the swells.

Captain Hamilton radioed for a new propeller motor to replace the one which had forced the landing and for a bag of cement to plug a bad leak in the hull.

Germany's ration system as imposed on Holland has been extended to soup and sauce tablets and powders.

Total valuation of farm land and farm buildings in the United States has been estimated at \$48,000,000,000.
