To the People of this Community: HURRY-UP JOB!

The Third War Loan is a hurry-up job for the home front. The government must rush billions of dollars to the fighting fronts in the form of extra munitions.

It's actually a matter of life or death for Americans in uniform. Once the invasion got under way we committed ourselves to the use of large numbers of troops and great stores of supplies. Any let down or crack-up in the supply trains could prove fatal.

Your job is to see to it that there is no shortage of anything needed to make the invasion swift and sure. We do not want another Bataan or Corregidor.

Get that extra War Bond today. Show that you are with our boys in this critical hour of invasion.
