

Awards For Canning Offered Youngsters In Farming Contest

Raleigh, Oct. 5.—North Carolina girl and boy farmers participating in the scholarship program of the National Junior Vegetable Growers Association are eligible to compete for four awards totaling \$100 to be given for outstanding achievement in vegetable canning. It was announced by L. R. Harrill, State 4-H Club leader, of Raleigh.

"These awards of \$25 each should be of particular interest to the much greater number of farm girls working in the program this year," Harrill said, "as almost all of them are earning a part of their harvest."

Prizes will be based upon quantity and quality of vegetables canned this year, and are in addition to the regular scholarship awards of the farm production and marketing program.

CHARLIE & ETHEL BAKER

They Also Play Their Part In Atlantic Convoy Duty

HAVING taken a substantial part in escorting more than 13,000 merchant vessels, carrying in the neighborhood of 77,000,000 tons of deadweight shipping from North Africa across the Atlantic since the war began, the boys of the Canadian Navy like their United States' seamen brothers, never feel that their ship's company is complete unless they have a pet aboard. Above, left, we see a merchant in off duty relaxing with two inseparable

companions, his dog and cat. Upper right is Sabbo—so named because of the sabotage he causes with the boys' belongings. He is one of the few pups in the R.C.N. to have his own hammock. Below, only a capful now, this kitten will soon be the pride and joy of this sailor during the long hours at sea while off duty.

Fire Prevention Means Check-Up

D. S. Weaver, head of the agricultural engineering department at State College, reminds farm families that Fire Prevention Week began October 3, and offers these tips to families who want to cut down the fire hazards in their homes.

He suggests that every farm family ask itself these questions: Do the members of our family have habits that are conducive to good fire control? Do they use kerosene or gasoline in starting fires? Are they careless about smoking conditions?

Are the oily greasy rags used about the garage put in metal containers or immediately burned, or are they allowed to accumulate in corners as a possible fire hazard? Are the children allowed to play with matches? Is the electric iron disconnected immediately after the ironer finishes with the ironing board?

"Many simple habits conducive to correcting the fire hazard may be instilled in members of the family by general discussion of the fire hazard problem," Weaver says.

He suggests that the family look over each of its rooms to see if any fire hazards are allowed to remain unchecked there. Now is the time to do it, he says, when everyone is being made conscious of such things, and then keep them aware of the dangers that come from carelessness.

YEP, IT'S HUTTON! Betty, who is variously known as the Blonde Blitz, Incendiary Blonde and Queen of the Jitterbugs, turns out to be a gorgeous glamour girl in this latest camera study. She'll soon be seen on the nation's screens as Bob Hope's girl friend in Paramount's hilarious musical comedy film "Let's Face It."

PULPWOOD goes to WAR

Your county agent, Extension farm forester, and TPWP foresters will assist you in cutting and marketing your pulpwood this fall and winter. Uncle Sam is asking farmers to use their spare time in getting out logs and pulpwood supplies wherever possible.

because lumber supplies are extremely short. R. W. Graeber, in charge of Extension forestry at State College, advises you to do selective cutting and suggests that you contact your county agent before finally deciding how to cut your timber.

Entirely too much green and damp cotton is being hauled to the gins this fall, resulting in losses of from \$4 to \$8 a bale to the farmer, reports Gin specialist C. L. McCaslan, State College.

Peach tree borers can be controlled the first half of October with FDB crystals and any time during October with ethylene dichloride emulsion. Ask your county agent for details of the treatment.

North Carolina Barbara, Holstein cow in the State College herd at Raleigh, has produced 3 times as much milk as the nation's average dairy cow, 14,531 pounds of milk in one year, or 588 pounds of butterfat.

LARD

Recent tests indicate that large hogs not only have more fat but the fat also yields more lard than fat of smaller pigs.

LEGAL NOTICES

ADMINISTRATRIX NOTICE

The State of North Carolina, Hoke County. In the Superior Court.
To All Whom these Presents Shall Come—Greeting:

It being satisfactorily proven to the undersigned, Clerk of the Superior Court for Hoke County, that C. H. Mumford, late of said County, is dead, without having made any last will and testament, and it appearing that Lucy M. Robinson is entitled to the administration of the estate of said deceased, and having qualified as administratrix according to law.

Now these are therefore to empower the said Executrix to enter in and upon all and singular the goods and chattels, the rights and credits of the said deceased, and the same to take into possession, wheresoever to be found, and all the just debts of the said deceased to pay and satisfy, and the residue of said estate to distribute according to the directions of said will.

Witness my hand and the seal of said Court, this 7th day of September, 1943.

J. B. CAMERON,
14-19 Clerk of the Superior Court

SPECIAL ATTENTION MR. FARMER! FERTILIZERS

We will be in a position to start delivering your fertilizer requirements for the 1943-44 Season, beginning OCTOBER 15th to NOVEMBER 1st, 1943.

To insure your having your fertilizers when you need them it is necessary that you start taking in your fertilizers not later than OCT. 15th to NOV. 1st. This is due to the fact that the LABOR SITUATION is even now EXTREMELY CRITICAL and daily becoming more CRITICAL. Also, deliveries will have to be made with inadequate transportation facilities.

It is true that for the duration, you as well as ourselves are compelled to operate our business under the most unusual conditions, which will work a hardship on all of us. In your case it means that you will have to take in your fertilizers well in advance of the time that you will actually need them, to insure your having them on hand when you will need them. To whip the Axis and bring the War to a quick ending it is necessary that we all work together, and give and take when and where it is necessary.

TO YOU WHO ANTICIPATE FARMING DURING 1944: For reasons other than those outlined here, a bird in hand during October, November and December will be worth much more to you than what birds you may have in hand after that time.

Your small grain sowed this fall should have ample fertilizer under it, in addition to being dressed with Nitrogen next Spring. We can furnish your requirements for this also.

Make your plans now—See us or our Agents, and let us start delivering your fertilizers not later than October 15th to November 1st.

Buy DIXIE BRAND FERTILIZERS and grow PROFITABLE CROPS.

DIXIE GUANO CO.

Telephone Nos. 63, 65, and 66
LAURINBURG, N. C.

We Manufacture Quality Fertilizers To Suit Your Needs.

WE KEEP YOU ROLLIN'

Wherever you service men are goin'—in line of duty or on leave—we consider it our important job to get you there, and back.

Greyhound's advertising is askin' Mr. and Mrs. Public NOT to ride so you run. Sure.

the buses are still crowded, but we're tryin' hard to serve all men in uniform.

After the war, we'll make everybody happy. Then you will discover again that you see more, save more and enjoy more by Greyhound bus.

Bill—the bus driver
