

Negro Awarded Purple Heart Post-Humously

Dan Hugh Frye, the father of Neil Daniel Frye, Hoke Negro who was killed in action, has recently received the Purple Heart and the certificate of the award for his son.

The letter accompanying the award reads as follows: Dan Hugh Frye, RFD 2, Vass, N. C. My Dear Mr. Frye:

The Bureau takes pleasure in forwarding the Purple Heart and certificate awarded your late son, Neil Daniel Frye, mess attendant third class, United States Navy, in accordance with the General Order 186 of Jns. 21, 1943 which reads in part as follows:

"The Secretary of the Navy is further authorized and directed to award the Purple Heart post-humously, in the name of the President of the United States, to any person who, while serving in any capacity with the Navy, Marine Corps or Coast Guard of the United States since December 6, 1941, are killed in action or who die as a direct result of wounds received in action with an enemy of the United States, or as a result of an act of such enemy."

The medal is being forwarded under separate cover. Please acknowledge receipt on the enclosed form.

Sincerely yours, Randall Jacobs, Chief of Naval Personnel.

Disease Control For Chickens

Colds and chicken pox are two of the diseases that commonly strike flocks during the fall and winter, warn Poultry Specialists at State College.

Control of colds depends to a great extent upon removing the cause before the disease has a chance to get started. The specialists advise, be sure the chicken house is free from parasites, especially red mites, and that the birds themselves are free from lice. Remove the birds with advanced cases, clean and disinfect the chicken house often, and give the birds fresh water several times daily.

In feeding them, keep a well-balanced dry mash before them at all times, and at noon, feed them a wet mash in amounts small enough that they will eat it all within half an hour. To wet the mash, use buttermilk, skim milk, whey or semi-solid milk. If milk is not available, wet the mash with water containing one pint of molasses to each gallon of water.

Add a teaspoonful of feeding oil that

OLIVIA DE HAVILLAND, a neo American citizen who hopes and prays that her birthplace will be bombed off the map before this war is over... cause she was born in Tokyo, Japan, drat the luck. She was brought to the United States by her English mother when she was two. Olivia has since acquired American citizenship. One town Miss de Havilland would hate to see bombed is Saratoga, Calif., where she lived until she was 17. She started her acting career there, which makes good of Saratoga really responsible for the fact that Olivia currently is starring at RKO Radio in "Government Girl." The de Havilland start was the role of Puck in the Saratoga Community Theatre's production of "A Midsummer Night's Dream." At the same time, Max Reinhardt was preparing to stage "The Dream" in the Hollywood Bowl. Olivia and her mother packed and went South, to learn that Reinhardt already had a Puck in Mickey Rooney. There was only one job open, understudy to the understudy to the girl who had the part of Hermia. Olivia became the understudy's understudy. So the girl who was to play Hermia got a screen contract, as also did Hermia's understudy, wherefore Olivia played Hermia. Then Warner's decided to film "The Dream," and away went Olivia on the highway to stardom. She played the lead opposite Joe E. Brown in "Alibi Ike," also with Jimmy Cagney and Pat O'Brien in "The Irish in Us," then starred with another newcomer, Errol Flynn, in "Captain Blood." Onward and upward went the pride of Saratoga, to reach her greatest triumph as Melaine in "Gone With the Wind." She's 5 feet-3, weighs 115, has brown hair and brown eyes.

contains vitamins A and D, to each quart of grain they are given. Always keep the litter dry and allow no strong drafts in the chicken house at night.

For the care of birds with chicken pox, vaccinate all between eight and twelve weeks of age. When the disease does break out in unvaccinated laying birds, use pigeon pox vaccine for them. Apply Carbolated vaseline to the comb and wattles of infected and noninfected birds, clean and disinfect the house and equipment, vaccinate the birds as soon as possible, and feed them the wet mash recommended for colds.

Potatoes

Weight for weight, white potatoes have one-fourth as much vitamin C as oranges or lemons, and supply some vitamin A, thiamine, and rib of lavin. They are also a good source of phosphorus and iron.

If You Find a Ration Book, Just Mail It

If you find a lost OPA ration book, the owner is just as near to you as the nearest mail box.

Here's all you have to do to return the book to the owner.

Drop any found ration book into the mails without wrapper or postage and the postoffice will deliver the lost book to the owner whose name appears on the cover.

The postoffice will collect a five-cent "postage due" charge from the owner. If the owner cannot be found the postoffice will deliver the book to the nearest war price and rationing board.

When a soldier or sailor is sent "overseas," a reserve food supply of 9 months must be set up for him. The more men sent "overseas," the greater the need for extra food.

Induction Follows Failure To Notify

Men who have registered for the draft and who have changed their address without notifying the draft board are subject to immediate induction.

All delinquents are classified in 1-A. The local board has received instruction from national headquarters that all delinquents are to be inducted immediately.

Machinery

Supplies of farm machinery for the coming year will be about double that of the past year, reports David S. Weaver, in charge of Agricultural Engineering at State College. More machinery means less hand labor. Swap hand labor for machine labor wherever possible.

Correction

In las last issue of the News-Journal a zero fell in the wrong order and our typesetting machine gave out a total of \$4,630.64 for the Ingathering at Antioch. This should have read \$4,063.64. Will you folks please give Sheriff Hodgins credit for the difference. 'Twont his fault. 'Twas ours. We should have read the proofs closer. DC.

Food For Freedom

No farm is 100 per cent in the "Food For Freedom" fight unless it is self supporting from a food standpoint says Director I. O. Schaub of the State College Extension Service. Tenants should be included.

Food Needs

For the duration of the war, no matter how much food America produces, we will always need more. The

ever-increasing demands for food will continue to exceed the supply.

Increased Yields

Increased yields per acre of food and feed crops offer one of the methods of getting a larger total supply of these crops, report State College specialists.

Extra Food

Extra food will help shorten the war, save American lives, and help write the peace.

AT FIRST SIGN OF A **COLD** USE 666 666 TABLETS, SALVE, NOSE DROPS

...on your doorstep

...is a problem...
Your problem.
In this instance she is a Chinese baby but it could just as well be a Polish child or a tiny survivor of ravished Greece or even the child of an American fighter far from home. These children and their mothers and fathers too are sitting on your doorstep. They are your Allies...your responsibility. Only you can help them. ...Well, what are you going to do about it?

HERE is perhaps the most effective thing you can do...

You can give your dollars to our community's war fund and, through it, to the National War Fund. Through this great over-all agency serving on all three fronts...the Military...United Nations and Home fronts, your dollars go to seventeen participating war relief services who are joined with our own local welfare agencies in this united drive.

Some of your dollars will go to the USO to comfort and entertain our own soldiers.

Some will aid our allies...British, Chinese, Dutch, Greek, Poles, Russians, Norwegians, Belgians, French, and Yugoslavs. They will buy them food, shelter and medical care. Your money will support hospitals, nurseries and children's homes...both abroad and at home.

Some will go to local welfare agencies and help care for those in need in your own community.

Some will lend a helping hand to our Merchant Marine.

Some will bring a bit of "home" to the barbed wire legion, the war prisoners of all nations.

Because the National War Fund and our community war fund have joined forces, you give only once...to all these war agencies listed below. They all share your gift—each in proportion to its need. So make it large...large enough to go around...LET YOUR HEART DECIDE HOW MUCH.

Give ONCE for ALL these

- USO
- United Seamen's Service
- War Prisoners Aid
- Belgian War Relief Society
- British War Relief Society
- French Relief Fund
- Friends of Luxembourg
- Greek War Relief Association
- Norwegian Relief
- Polish War Relief
- Queen Wilhelmina Fund
- Russian War Relief
- United China Relief
- United Czechoslovak Relief
- United Yugoslav Relief Fund
- Refugee Relief Trusts
- United States Committee for the Care of European Children
