MONEY AND BANKING

In Everyday Living

"KEEPING YOUR CAR looking pretty as new... Is a matter of *do's* just as much as of *do's*." Because you have a sense of pride about the appearance of your car—and because you may wish to resell some day—you will want to note these cautions by a leading auto manufacturer, on exterior maintenance: Don't park under trees which drop sap; don't wipe off dust and dirt when the car is dry, but surfaces scratch; don't wash the car with hot water, or under a hot sun.

AUTO ADDITION. If you are at the point of buying a new car, and expect to finance, try some "money-saving math." Write down the cost of the car you want, plus extras and less down payment and/or trade-in. Add the cost of the car insurance, and the low cost of

bank financing—phone us, and we'll gladly figure it. Divide the total by the number of months to repay (we'll tell you that at the same time) Your final result—the very modest monthly installment you'd pay, "the bank auto loan way." Take this step before you buy!

A WORD ABOUT A WORD. From time to time, we refer to our "complete" banking service. That word *complete* covers a lot of ground. We offer checking, savings, and loan facilities, of course—and we're equipped to help you with everyday money matters in scores of other ways, as well. Even if you have a financial need or problem which no specific service of ours exactly fits, we can often be helpful—with advice, based on experience. To learn how we can serve you best—come in.
