Mon.-Sat. 8 A.M. - 10 P.M.
EDENBOROUGH CENTER

... Front Burner

(Continued from page 6) and cover. Bake in 350°F. oven for 1 hour.

Spinach Casserole

6 eggs
1 (24 oz.) carton cottage cheese
6 tablespoons flour
1/2 cup butter, melted
2 (10 oz.) pkgs. spinach, thawed (or two cups fresh spinach, blanched)
2 tablespoon minced onion
1 lb. cheese, cubed

Beat eggs and cottage cheese and flour until blended. Add butter, cheese and spinach, and onions. Bake in a large covered casserole (2 1/2 qt.) for 1 1/4 hours or until set at 325°F.

Favorite Banana-Nut Bread

1 cup butter or margarine
2 cups sugar
4 eggs
1/4 teaspoon salt
2 teaspoons soda
2 teaspoons cinnamon
4 cups flour
6 large, very ripe bananas, mashed
1 cup finely chopped pecans

Cream together butter and sugar. Add eggs, one at a time, beating well after each addition. Sift dry ingredients together and add to creamed mixture. Add bananas and nuts. Pour into well-greased loafpans, and bake at 250 or 300°F. from 1 to 2 hours. A few of the pecans may be saved for sprinkling over the top of each loaf before baking. Makes 2 loaves.

... Winter rains

(Continued from page 6) occurs, we may begin to see some problems.

Water that drains off cropland fields may cause soil erosion to occur or begin ponding in local fields causing wetness problems.

These type of conditions are costly to the local farmers. Fields with soil erosion occurring are loosing valuable soil, fertilizer, chemicals, organic matter and soil particles; which may be deposited in local field ditches, stream channels or ponds. Soil erosion on cropland causes farm profit to decrease and maintenance cost to increase.

Many fields in the southern part of the county are faced with soils that have a natural high water table.

Winter rain can cause fields to become too wet for large farm equipment to complete harvesting spring crops.

The time and money spent in planting a crop in these areas are lost.

The farmer's potential profit is cut once more.

Wetness problems can be easily solved by the installation of field drain tile if adequate outlets are available.

Farmers that are faced with soil erosion or drainage problems should contact their local Soil and Water Conservation District Office for assistance with conservation needs and application.

For assistance with erosion and drainage problems contact the Hoke County Soil and Water Conservation District Office.
