

A NEW ADMINISTRATION

Governor Wilson became President Wilson at noon on the fourth day of March. We doubt if any man ever took his seat in the President's chair, who had so many of the very best people in the country his friends and well wishers. Nor has a President ever been elected of whom the monopolists of the country have stood in so much fear.

It is evident that he will either make a great success of his administration, and in so doing make a lot of trouble for some people to whom trouble ought to come; or he will make a great failure and be a disappointment to many. We hope for his success, and we expect it. We all know he is a thorough scholar. We all know that, whether as President of a college or Governor of New Jersey, he has said to a good many people: "This is the way; walk ye in it"; and they have walked in it, often quite unwillingly; but they have walked. What many of them have said in their hearts about him would not be fit to put in the dictionary.

Whether his administration is a great success or a great failure, he is likely to complete the smashing up of political parties that has been going on for the last eight years; and pave the way for the re-alignment the country so much needs. Therefore, the new President is entitled to the best wishes of all lovers of their country, and to the prayers of all good Christians; for in the providence of God he has been made the head of this great nation, on which the destinies of the whole world depend quite largely.

The success or failure of his administration will depend on whether he is a leader or a ruler. The selection of his Cabinet indicates that he intends to follow what may be called progressive politics, as opposed to reactionary. He evidently believes that no party fit to live is satisfied with the present. When a man believes that his success is as good as achieved and that he has nothing more to do but take it easy, his usefulness is ended and he may about as well die one time as another. When a party believes that it has all the wisdom, and that anything that is not in the line of its party policy is wrong, it is time for that party to die; and for the good of the country it ought to die. When a church believes that it has all wisdom expressed in its particular creed, and that there is nothing further to be said, then it is time for that church to die. No party, creed or church is fit to live that is not willing to die if by its death the welfare of humanity can be advanced.

The choice of President Wilson's Cabinet indicates that the new President believes in progress. Most of them are pretty well known by reputation to our readers. Therefore, while not belonging to or supporting his party, Wallaces' Farmer hopes that the new administration will be successful in promoting the best interests of the people, and does not care particularly what party or factions may be obliged to get out of the way as the country progresses. —Wallaces' Farmer.

JEWISH FARMER CREDIT UNIONS.

In view of the large amount of talk concerning the need of credit unions for the farmers of this country, patterned somewhat after the credit system in Germany and other foreign countries, it is interesting to note that the Jewish Agricultural and Industrial Aid Society has, in a quiet way, already established eight co-operative farmers' unions. Three of these were established in May, 1911,

and the other five in the spring of 1912. A statement issued by the society shows that these unions are doing excellent work. The total membership of the eight is 240 farmers, with a capital of \$4,223. In a year's time these Local Unions made loans to the amount of \$23,375. The Jewish Agricultural and Industrial Aid Society has issued a pamphlet which contains the articles of incorporation and by-laws under which these farmers' co-operative associations are organized.

AID TO LIVE STOCK INDUSTRY.

Atlanta, Ga., March 12.—To give practical aid to live stock growers along its lines, the Southern Railway Company has secured the services of two experts in animal husbandry: Dr. Walter Sorrell, who will be stationed at Greensboro, N. C. and will work in Virginia, North and South Carolina, and Dr. C. D. Lowe, who will be stationed at Chattanooga, Tenn., and will work in Tennessee, Alabama, Georgia, Kentucky and Mississippi. They will be known as assistant live stock agents and will report to Mr. F. L. Word, live stock agent, Atlanta, Ga.

Both Dr. Sorrell and Dr. Lowe have had years of practical experience in animal husbandry work. Both have been in the service of the United States government and are thoroughly conversant with conditions throughout the Southeastern States.

The duties of these men will be to advise farmers as to feeding, breeding and caring for live stock under conditions that exist in the territory along the Southern Railway, to assist farmers in organizing live stock clubs and associations, to give practical demonstrations, and to be at the service of farmers without any cost to them, giving any information, rendering assistance and co-operating in any manner that will tend to aid and encourage the raising of more and better live stock.

Color of yolk, quality of contents, and shape of eggs are all more or less governed by the food and feeding.

IN MEMORIAM.

Whereas, on the 30th of December, 1912, God, in His infinite wisdom, saw fit to remove from our midst our brother, W. T. Stephenson. Therefore, be it resolved by the members of Gumberry Local.

(1) That in the death of our beloved and faithful brother, this local sustains a deep loss which will be felt more and more each year. A kind and obliging neighbor, faithful in the discharge of his every duty, loyal to the Farmers' Union and his local. He will be sadly missed in both County and Local Union.

(2) That the entire brotherhood of this Lodge extend their heartfelt sympathy to his family in their sad hour of trial and loss. We commend them to Him who doeth all things well.

(3) That a copy of these resolutions be spread on the minutes, a copy be sent to the bereaved family and a copy furnished the Carolina Union Farmer for publication. C. L. STEPHENSON. B. L. SYKES.

JOHN M. KING.

Whereas, It has pleased our Heavenly Father to remove from our midst our fellow-member, John M. King, the members of Why Not Local, No. 1383, Farmers' Educational and Co-operative Union of America, wish to show their appreciation of his worth and to extend to the bereaved family their heartfelt sympathy; therefore, be it resolved.

(1) That we bow in humble submission to the will of our Master in this dispensation of providence, thanking Him for the life and influence of our brother.

(2) That this Local has lost a faithful member and genial friend to all its enterprises.

(3) That the church has lost a faithful and conscientious member, and the community a substantial, upright citizen.

(4) That we commend the bereaved family to Him who doeth all things well in this hour of sadness and sorrow, realizing that He can give the comfort so much needed in this sad dispensation.

(5) That a copy of these resolutions be sent to the bereaved family, one spread on the minutes of our Local, one sent to the Asheboro Courier, and one to the Carolina Union Farmer for publication. G. F. GARNER, J. A. MONROE, O. D. LAWRENCE, M. A. CAGLE, M. C. ANMAN, Committee.

Your Copy of My Garden Seed Catalogue Is Ready Address a Copy to Yourself

by Filling out & Mailing this Coupon

This Book tells how I, a farmer, am supplying other farmers with selected Garden Seed. It'll be worth many dollars to any farmer. It shows some of my earliest and most prolific varieties.

My seed store is the Hyco Seed Farm. Out here I grow Seed and test them for germinating power and purity. I know the seed I sell. This book will tell you all about the varieties I will be able to supply this year.

My Tobacco Seed have been the standard for the past forty-six years. You'll prefer my Garden Seed, too, when you once know the facts. I want to place a copy of this Catalogue in your hands. Fill out the coupon NOW and mail it to me.

Slate's Seed

CUT OUT THIS COUPON ALONG DOTTED LINES

Saves 1/2 the Labor of Planting

Saves Seed and secures a fine even stand.
Cheaper to cultivate.

Gives Cotton a Quick Start—2 chances at a Big Crop.
Cotton, Corn, Beans, Peas, Peanuts and other seed are accurately planted with the Cole. At one trip it smoothes the bed, opens a furrow, mixes guano with the soil, covers it, opens again, plants the seed and covers them in the most accurate and scientific manner.

The Cole Planter No. 7

In planting it puts the fertilizer below the seed for cotton—just above the seed for corn—the way it ought to be.

The guano being mixed with the soil around the seed prevents the fertilizer being too strong and injuring their power to grow. Just as soon as the seed sprouts the young plant is fed.

Your crop grows off thrifty and vigorous, and is much cheaper to cultivate than puny, slow-growing stuff—gets ahead of cut-worms and boll weevil. Stunting is prevented!

You save the work of a man and mule by distributing guano while planting with the Cole.

The Cole Planter is the strongest and most durable of all planters. It is the most easily operated. At every point you will positively find that its work is best. It plants cheaper and better than any planter ever built.

The steel Coulter breaks the crust—throwing the trash and dry top earth into the middles. The long steel sword presses out a firm V shaped furrow.

The pressure causes the earth to become compact just beneath the seed, creating what is known as capillary attraction, that draws up moisture from the earth to the seed.

The loose earth on top is a mulch, that retains moisture around the seed.

Seed fall in plain sight. The wind cannot blow them away. None are wasted at the end of the rows. The cotton comes up in a straight line without bunches. Thus it can be chopped to a stand much faster and plowed more accurately, reducing the cost of cultivation.

The Cole gives you a quick even stand with as few seed as it is safe to plant.

The saving in seed and labor will more than pay for the machine the first season.

Write us for Catalogue

Our Free catalogue tells all about the famous Cole Planters and Labor saving distributors. Shows how to get more good from guano. Write for it. Buy direct (freight prepaid) or, if you prefer, a local merchant will supply the Genuine Cole and guarantee you satisfaction.

The Cole Mfg. Co.
Box 900 Charlotte, North Carolina

Grow 1 1/2 Bales Cotton Where Only 1 Grew Before

One to one-and-a-half and even two bales of cotton, or 60 to 90 bushels of corn per acre, require little more labor than smaller yields. Simply use liberally the right fertilizer or plant food to the acreage you plant, and cultivate the crop more thoroughly and oftener. You cannot be too careful in selecting fertilizers and seeds. Your soil deserves the best plant foods which are

Virginia-Carolina High-Grade Fertilizers

They are made to give Available Phosphoric Acid, Ammonia or Nitrogen, and Potash in the right combination for greatest yields. These fertilizers produce big crops of COTTON, CORN, RICE, TOBACCO, FRUITS, PEANUTS and TRUCK.
