## DIAMONDS SENT TO COMRADE MARTENS

### SELF-STYLED SOVIET AMBASSADOR'S CONNECTION WITH SMUGGLING PROVED.

## LOOTED FROM ROYAL FAMILY

### England About the Jewels Captured From Queen Mother Was Guilty of Communist Literature.

Washington—Traffic by bolshevik agents in precious stones, supposed to have formed part of the famous jewels of the Russian royal family, has been uncovered by Federal authorities.

The 121 diamonds found by Nels Jacobsen, a Swedish sailor, by customs officials in New York July 22, it became known were included in a package addressed to "Comrade Martens." Using this as a lead, federal officials began an investigation which they declare has definitely connected Ludwig C. A. K. Martens, self-styled soviet ambassador to the United States, with the traffic. Disclosure of the fact that the package was intended for soviet agents in this country was withheld by customs authorities when Jacobsen was arrested.

Excited about the diamonds taken from the possession of the Swedish sailor, Jacobsen, whom officials exonerate from any complicity in the illegal proceedings, was a quantity of communist literature.

## SPEEDING CHARGE LAID AGAINST COX

### UNPLEASANT INCIDENT MARKED ITINERARY OF DEMOCRATIC NOMINEE AND PARTY.

## ENTIRE PARTY WAS ARRESTED

### Governor Orders Cars to Proceed and Informed Motor Cops They Could Find Him at Any Time.

Columbus, O.—An unsuccessful attempt to arrest Governor Cox, on a charge of automobile speeding and careless driving, marked the return of the democratic presidential candidate returning from Wheeling, W. Va. The attempt was declared by Roy E. Layton, adjutant general of Ohio, to have been planned to embarrass the democratic nominee.

At Jacksonville, O., about 22 miles east of Columbus, the governor and his party rode slowly through, disregarding instructions of a sheriff's deputy, and also a large group of persons gathered there. Within a few minutes two motorcycle officers stopped the governor and press correspondents, declaring all under arrest and demanding their return to Jacksonville. Governor Cox identified himself, but the officers said they had orders from Jacksonville authorities to arrest all four automobiles of the party, no matter who they contained, on charges of speeding.

"You can reach me at the executive office at Columbus any time," Governor Cox replied, ordering all the cars to proceed and leaving the officers busy taking down car numbers on the fly.

### America to Use "All Available Means" to Preserve Poland's Independence—Resistance to Red Armies in Creeping-Express Workers Get Wage Increase.

By EDWARD W. PICKARD.

The United States will employ "all available means" to safeguard the independence and territorial integrity of Poland, and will not recognize the soviet government of Russia.

The French government has promised the Warsaw government of southern Russia and will give it military aid against the bolsheviks, and the French representative in London has been instructed to break off all relations with Krasin and Kameneff, the soviet trade commissioners there.

The British government, though somewhat dismayed by the American and French announcements and the apparent break with France, still hopes and believes a peace can be negotiated between Russia and Poland.

The Russian government in its refusal to permit mediation by any third party, sent a delegation to Minsk to meet the Poles, and continued their creeping movement designed to re-occupy Warsaw.

The Poles and representatives in Minsk in talk, and having withdrawn in good order from their advanced positions, established two lines of defense before Warsaw and prepared for an extensive counter-attack.

In the lineup of the powers, Italy stands with Great Britain, and France stands on the support of the United States. Germany maintains an ostentatious neutrality while hoping for the coming of Poland, believing the Polish adventure was instigated and directed by France.

Such is the summary of conditions, on the day of writing, in the biggest of the wars that are still going on.

President Wilson's statement of America's position was made in Italy. It is suggested that the conflict might be ended by the withdrawal of all Russian forces from Poland and the withdrawal of all allied troops from ethnographic Russia, together with armistices by the allied and associated powers that Russia will not be demarcated. He stated that his dealings with the soviet regime to be of within "the most narrow limits" in which the discussion of an armistice can be conducted, and covered the soviet government as that of a tyrannical and dishonorable oligarchy whose assurances and guarantees are practically worthless. In asking that the true boundaries of Russia be respected, the note specified that those boundaries should not include Finland, which Poland and other territory as may be agreed from a part of the Armistice zone. Just what the president meant by "all available means" to preserving aid to Poland was not made clear, but it was assumed, both by government officials and by the representatives of Poland in Washington, that the phrase did not include the dispatch of troops.

Prime Minister Sluzki, the Polish minister, did not ask for armed assistance, but said the need of his countrymen was for food, clothing, arms and other war necessities. Thus, he added, are needed immediately and imperatively.

A conference of the British and French premiers was held at Briks, returning to London. Lloyd George told the lower of commons that he still believed in peace. He said Russia was entitled to strict guarantees against a repetition of the Polish attack but was not entitled to demand Poland as a nation. If Russia acted within those conditions there would be no war by the contents. If the Minsk meeting failed of results, he declared, the allies had decided on the strategic policy to be followed: (1) No action, except to support Poland in the struggle for existence; (2) only to give support to the nation which fights its own struggle; (3) no allied troops to be sent to Poland; (4) the allies will help to equip the Poles for their own defense; (5) to give military advice and guidance; (6) economic pressure to be brought to bear on Russia; (7) to help Wrangel and all other counter-revolutionaries; (8) end of trading negotiations.

## GOVERNOR BICKETT SPEAKS TO SOLONS

### APPEARED IN PERSON BEFORE THE GENERAL ASSEMBLY TO DELIVER HIS MESSAGE

## REVALUATION ACT IN DETAIL

### The Governor was in Good Form and Held Undivided Attention of Members and The Crowded Galleries

Raleigh. Governor Bickett appeared in person before the legislature to deliver his message. He was in good form and held the undivided attention of both the members of the general assembly and the crowded galleries. A part of that part of the message relating to the revaluation act follows: Gentlemen of the General Assembly:

For many years the tax books of North Carolina presented conditions of error and tragedy of injustice. These untoward conditions were not due to any vicious principle in our organic law, nor to any moral perversion of our people. The condition has always required property to be listed for taxation at its true value. The average citizen has always desired to speak the truth and to do equity. The errors and inequalities that have made our tax books look like the minutes of an Achanian club were born of machinery acts utterly unsuited to modern conditions, and hopelessly inadequate to execute the virtuous wishes of the people as declared in the basic language of the constitution.

This general assembly at the regular session of 1918, concentrated itself on the task of devising a machinery act that would list all the property in the state and determine its true value. I am grateful to report that this high purpose has been accomplished with remarkable completeness and perfection. For the first time in our history tax values are true values. For the first time the citizen and the stranger within the state may go to the tax books and find a fairly accurate inventory of the property of the state, and a fairly accurate assessment of its value in the new machinery act the people were for the first time seriously asked to tell the truth, and they have responded in this appeal in noble fashion. From every quarter of the state word has come that the people are happy to get away from the old system of assessments and evasions, and to let the exact truth about their property stand forth.

Taking the state as a whole, 78 per cent of assessments were made at a value only the value shown in a survey of the property 20 per cent were substantially increased and a per cent were decreased.

The law gives to every property owner the right to appeal from the judgment of the county board to the state tax commission. The local authorities appraised the true value of property that not one person in a thousand appealed from their judgment. This is a record without parallel in the history of judicial tribunals. The vital guarantee secured by a law people is not against the failure of the act, but is against its success.

The high objective of the act is to equalize the burden of taxation and to wipe out discrimination. And just in proportion as true values have appeared on the tax books errors and inequalities have vanished. True values are always equal values, but neither wisdom nor virtue, nor selflessness nor power, nor length nor strength, nor height nor depth, nor things present nor things to come nor any other creature can equalize a list of lies.

In the beginning, when the north was without form and void, and darkness was upon the face of the deep, "God said, let there be light." The true valuation act is a consolidation effort to create that high command. Let there be light! Let the white light of truth beat and blaze on the tax books of North Carolina, and in the shining promise no relative will live.

The Governor on Suffrage. "I refrain from advancing the usual argument in behalf of suffrage. I leave entirely out of consideration the needless advantage or disadvantage which ratification might entail. I urge ratification, first, in the hope of thereby clearing the political atmosphere; second, in the belief that the suggestion of effective opinion works harm to the whole body politic; and, finally, in the conviction that we owe immediate action as a measure of simple justice to American women. I trust you will help in this."

Gain in Real Estate Values. The total value of all real estate listed for taxation last year amounted to \$262,000,000.

The total value of all corporate property listed in 1929 was \$200,000,000; the total value this year is \$271,000,000.

The value of the cotton crops listed in 1929 was \$20,000,000; in 1930, \$26,000,000.

The value of the turkey crops listed in 1929 was \$7,000,000; in 1930, \$12,000,000.

State Will Not Ratify. On the eve of what promises to be a busy session, the most spontaneous session of the North Carolina general assembly in recent years, supporters of the Susan B. Anthony Amendment express the belief that ratification is doomed in the house, but that it may pass the senate. Even that appears doubtful.

Governor Bickett's message will deal only with the revaluation act. Later, he will send a special message on woman suffrage, salary increases and other matters. But the governor wants the machinery to put the revaluation act into operation passed first of all. As far as the Susan B. Anthony amendment is concerned, he will recommend it, but it will be secondary legislation with him.

The full committee on Finance and Constitutional Amendments' recommendation is agreed on which reads, in part, as follows: "Article 3, Section 2 (of the constitution) by repealing the provision in said section, 'That no tax shall be taken upon the property from which the income is derived to tax' and substituting in lieu thereof the following: 'Provided the rate of tax on incomes shall in no case exceed 4 per cent and there shall be further allowed the following exemptions in the nature of a reduction from the
