Do You Give Your FACE the same Attention You Give Your FEET?

We know that sounds like a silly question, but nevertheless it is true that many women give their feet better attention than they do their faces, believe it or not. Painfully exacting as to quality, style and fit of new shoes, they buy without thinking any kind of cosmetics which sport a low price tag.

We sell only the better, nationally advertised cosmetics, of proven worth and value. Give your face a break and don't risk ruining your complexion with cheap substitutes.
