Club Asks Compulsory Vaccination of Elkin Dogs In Rabies Fight

WOULD SHOOT STRAY DOGS IN EFFORT TO ELIMINATE MENACE

Point Out Numerous Outbreaks of Rabies Hereabouts

TO ASK ORDINANCE

An investigation of both state and town ordinances pertaining to the inoculation of dogs for rabies to see whether or not any law is on record providing for compulsory vaccination was suggested during the meeting of the Elkin Kiwanis club at Hotel Elkin Friday evening.

It was brought to the club's attention that there are a number of stray dogs about town which provide an ever present menace to the lives of children and animals due to the frequency of rabid, or mad dogs, hereabouts. It was pointed out that if there is not an ordinance on either the town or state books requiring that every dog be vaccinated (provided the animal has an owner) such an ordinance should be passed and all ownerless dogs shot.

It was suggested that every person owning a dog pay a sum sufficient for inoculation at the time dog tax is paid, or else stand the chance of having their dog shot.

Winston-Salem is having and has had numerous outbreaks of rabies during which numerous people have been bitten. Such outbreaks of the disease could easily spread here, it was said.

An investigation of dog laws is to be made, and provided there is no ordinance covering compulsory inoculation an effort is to be made to have such an ordinance passed.

LATE NEWS from the State and Nation

REFUSES TO LEVY MORE TAXES

Washington, April 10.—By 46 to 44, the senate today refused to levy an additional one-year emergency tax of 10 per cent on all individual income tax returns in 1935.

It also rejected without a roll call a proposal to boost surtaxes beyond the finance committee rates which already are higher than existing levies.

The 10 per cent emergency tax, proposed by Senator Couzens, Republican, Michigan, would have raised an estimated \$55,000,000. The higher surtaxes, suggested by Senator King, Democrat, Utah, would have yielded another \$40,000,000.

BISHOP CANNON IS ON TRIAL

Washington, April 10.—The contention that the money given Bishop James Cannon, Jr., for combatting the presidential ambitions of Alfred E. Smith was used for that purpose was put before a jury in District of Columbia Supreme court today by counsel for the churchman.

Robert H. McNeill, chief of defense counsel, told the jury he expected to show that the bishop "took the money and spent it and distributed it in accordance with the great desire of the contributors."

TWO SENTENCED FOR FORGING CHECKS

Raleigh, April 10.—Miss Rebecca Westmoreland, Thomasville girl of 23 years, got a two-year suspended sentence today for her part in the passage of forged checks drawn against state funds, and Claude Horne, one-armed former prisoner, got 20 years, five of which he must serve.

Horne, who was taken after various vouchers on the state had been successfully passed, pleaded guilty, as Miss Westmoreland did.

London Opinion: A railway porter complains that he is sometimes expected to take luggage to houses three miles away from the station. That is carrying things too far.

KIWANIANS WANT BUSINESS STREETS CLEANED OF TENER

Claim Main Drag Congested With Litter Sunday Mornings

B A D IMPRESSION

With an eye towards cleaner streets and a more sightly town, the Elkin Kiwanis club Friday evening discussed the advisability of requesting the board of town commissioners to have the business streets washed more often and made a plea to Elkin merchants to see that no waste is swept from their stores into the streets.

It was pointed out that Elkin streets frequently resemble a circus ground just after the circus has pulled stakes, and although it was admitted that there is no power to control peanut eaters and paper sack droppers, nightly washing of the streets would at least give the streets a veneer of cleanliness and respectability with which to greet the dawn.

Sunday morning is notably the most untidy morning as far as trash and litter is concerned. It appears that everyone who orders a drink in a paper cup, or buys a package of peanuts or popcorn insists upon throwing the container upon the pavement much to the embarrassment of Sunday morning. And it was further pointed out by the Kiwanians that this litter does not make a favorable impression upon any stray tourist who might be passing through, or visitors who perhaps may be considering the town as a future abode.

An inquiry during the height of the discussion revealed that at present the city streets, like some of the human inhabitants, get a bath but once a week, and that this weekly wetting is not nearly sufficient to present a spotless front on the other six days.

It was further pointed out that trash swept from the sidewalks by one merchant who takes a pride in his store's appearance is blown by vagrant winds into the doorways of other stores which take just as much pride in cleanliness. Only a nightly flushing would prevent such a condition, it was agreed.

OLD CLASSMATES TO GATHER AT HARMONY

Reunion To Be Feature Of School Commencement Week

One of the most interesting features of commencement week at the Harmony school will be a reunion of the old students. Old classmates will gather on the school grounds Tuesday, April 24, in the afternoon. There will be a picnic supper at 6:30 in the gym or on the campus. All former students are urged to attend and bring well-filled baskets.

This is the first reunion that has been held here in several years and everyone is looking forward to meeting again with old friends. The afternoon will be spent in a general "get-together" meeting in the gym which will be under the direction of the class of 1934. After supper an alumni meeting will be held in the auditorium at which time officers will be elected for the coming year. It is hoped that it will be possible for a large number of former Harmony students to be present on this occasion; and a big time is promised to all who attend.

"Confession" In Murder Case Just Another Rumor

Rumors widely circulated here the first of this week to the effect that Mrs. Luther Tilley, under indictment together with four other members of the Tilley family for the murder of Leoda Mae Childress on December 30, 1933, had confessed full details of the killing, were found to be false when checked by a member of The Tribune news staff Monday.

Reports that Mrs. Tilley, who is at liberty under \$2,500 bond, had confessed that her husband, Luther Tilley, was the slayer of Andrew Eldridge, whose badly decomposed body was found in Klondike lake several years ago, and

DR. WIRT NAMES TUGWELL AS HEAD

Testifies He Learned of "Revolution" Plot In Virginia

Washington, April 10.—The six persons who attended a Virginia dinner party last September at which Dr. William A. Wirt said today he heard that the "brain trust" planned revolution will tell a house committee about it next Tuesday but all indications tonight were the inquiry would end right there.

Wirt made it plain he felt Rexford G. Tugwell, assistant secretary of agriculture, was the leader in a movement to undermine the constitution. But the three Democratic committee members did not express great concern after the hearing. Perspiring profusely and standing on tiptoe in his earnestness, Wirt referred to Tugwell time and again. He also wanted the committee to call Lewis Douglas, director of the budget, and William I. Westervelt, former AAA official, to see if they would substantiate his charges.

Committee Makes Decision Once the committee room that was crowded with celebrities and plain citizens emptied, the mem-
