

# THIS WEEK IN WASHINGTON

Washington, July 23.—About the only person in Washington who is not completely worn out by work and worry in the jungle heat of a Capital Summer is the President of the United States. The fact is noted here to dispel rumors that the President's health is falling.

Washington's "silly season" always produces a crop of gossip and rumor about whoever happens to be occupying the White House. Sly whispers are exchanged, passed on and magnified in the passing, about the incumbent President's morals or his health. These get circulated around the country, until a lot of people who ought to know better than to credit irresponsible gossip, get to believe that there is something seriously wrong.

This year's gossip touches the

President's health. Nobody is whispering about his morals, but you can hear in any bar or club, at almost any social gathering or even on street corners "inside" but false information to the effect that Mr. Roosevelt is physically in a bad way. The gossip mongers will tell you that the infantile paralysis, which has deprived him of the use of his legs for the past fourteen years, is creeping upward, affecting his nervous system and his digestion and causing his doctors alarm, etc., etc., etc.

### President Spikes Rumor

That is not true, but the rumor has become so persistent that the President himself took notice of it, and at a recent press conference called attention to his robust physical condition and the calmness of his nerves.

While he cannot take any form of exercise that involves the use of his legs, such as riding, golf or tennis, he gives great attention to keeping fit, gets his exercise by swimming in the White House pool for half an hour every day, and is probably now in better general health than when he took office.

He plans to demonstrate the truth about his health to the whole nation next month when he will cross

**Prize \$10,000 4-H Club House**

CHICAGO . . . To the 4-H club members of St. Louis county, Minnesota, will go the \$10,000 Club house (above), which is to be dedicated on August 23 at Lake Esquagama, near Biwabik, Minn. It was awarded the Minnesota 4-H Clubs in a national contest for ranking highest in efficiency of their programs, contributing to social and business life of the region.

The great lesson in life is to learn the value of temperance in all things.

There can be no exact scientific definition of an intoxicating drink.

It is the special handicap of the liberal attitude that it must be intelligent or it is helpless.

The first two eggs laid by a pigeon never hatch.

## Inward POISONS make you feel TIRED and SLUGGISH

This Modern Treatment, Thor's Vitamin B Compound, Will Get Rid of Them in Just a Few Days.

Medical research has revealed that your tired-out, sluggish condition, nervousness and lack of energy and appetite may be, and probably are, caused by your system being starved for vitamins B and G. Your lack of strength and endurance probably are due to your system not getting enough iron and copper to keep your blood rich, red and vigorous.

That is why so many people find the new yeast, iron and copper treatment, Thor's Vitamin B Compound, the very thing they need to overcome their weak, nervous, sluggish condition, set their stomachs right, and bring back their weight, strength, and energy.

Thor's Vitamin B Compound makes you feel better from the very first few days, because it gives your threadbare nerves and worn-out stomach the vital vitamins B and G they have been starving for; and the iron and copper that any doctor will tell you are necessary to build rich red blood and vigorous strength. It strengthens digestion and elimination and cleanses the system of the inward poisons that are making you so tired, sluggish and no-account. You eat with new zest, sleep "like a top" and wake up feeling rested, fresh, and full of energy.

Get a bottle of Thor's Vitamin B Compound today. A full sixteen days treatment costs only \$1, and complete satisfaction is guaranteed from the very first bottle or money cheerfully refunded.

Sold by Turner Drug Co.

the continent and make several speeches at strategic points.

The President has one advantage over Congress, in that he sleeps in the same building that he works in, and does not have to expose himself to 100-degree temperatures in passing from one air-conditioned room to another. Congressmen, although their working quarters are air-cooled, cannot escape exposure to the torrid, humid climate, and have to get such sleep as they can in hot rooms which are not conducive to rest.

The result is the greatest collection of frayed nerves and hair-trigger tempers ever gathered on Capitol Hill. Congress as a whole is physically unfit to debate calmly and reason clearly over any legislative proposal.

Senator Royal S. Copeland, of New York, a physician and former Health Commissioner, said frankly and publicly the other day that such a worn-out, dog-tired, heat-smitten and generally run-down aggregation as the Senate and House at this time could not possibly give balanced, well-considered or statesmanlike judgments.

**Look for Adjournment**

Senator Copeland prescribed an immediate and long vacation, and the indications now are that Congress will act on that prescription and go home around the middle of August, perhaps earlier, leaving the President's next tax program for cooler consideration, either at the next regular session in January or at a special session beginning in November.

"The President has worn out, not himself but Congress," remarked one of the shrewdest Washington observers the other day. That is literally true, and the result is rather languid and indifferent approval of current Administration measures by a body of men who haven't enough energy left to be either critical or constructive.

All that is keeping Congress from adjourning this week is the pledge of the Democratic party leaders to Senator LaFollette that if he would refrain from offering his own "soak-the-rich" tax program at this session, and keep his Progressive followers on the reservation, they would put the President's pet plan through at once, at least to the extent of reporting a new tax bill out of the Ways and Means Committee.

### Chevrolet Climbs To New August Record

Detroit, July 22.—Chevrolet sales and production in June were the largest for that month since 1929, W. E. Holler, vice president and general sales manager, reported today. Sales in the United States totalled 97,862 units. Total production, including Canada and export, was 122,300.

"These figures," Mr. Holler, announced, "not only surpass the sales and production totals for any other June since 1929, but with a single exception exceed the highest totals for any month in years."

"For the third time this year, June gave us a monthly production in excess of 100,000, the other two months being March and April. In no other year since 1929 has even an entire year had three 100,000-car months such as this year already has at the half-way mark."

"As we enter the second half of the year, we have already built more than 60 per cent as many cars as we produced in all twelve months of 1934—a year in which Chevrolet started the industry by registering more cars in the last six months than in the first half."

"Sales of the Master de luxe models in June greatly exceeded Standard model sales. However, the lower priced Standard models, improved this year with the addition of the Master blue flame engine, is a tremendous success. To date, 1935 Standard sales show an increase of 107,727 units over the same period last year."

### Colorful Swim Suit

NEW YORK . . . If your preference for style in bathing suits is influenced by the model wearing it, then your purchase may be a novel printed "dressmaker model" of trunks and halter, as worn by Miss Lola Solomon at an Atlantic shore resort.

## BOLT OF LIGHTNING STRIKES I.N. WILLARD

### Aged Citizen of Yadkin Dies Instantly After Being Hit By Bolt

Isaas Newton Willard, 82, was instantly killed Thursday afternoon at 4 o'clock, at his home near Shaktown, when he was struck by a bolt of lightning which had first hit a tree and going down the tree entered a small outhouse where he had gone a short time before. Only he and his wife were at home and when he did not return his wife went to look for him. When she found him his shirt was afire and she put out the fire, going then for help.

Mr. Willard was born in Yadkin county, March 2, 1853, and most of his life had been spent in the county. He was married on March 8th, 1874, to Miss Nancy Russell, and they had lived happily together for 61 years. The widow, and the following children survive: Mrs. Mary McKnight, Mrs. Agnes Salmons and Mrs. Etta Jayner of Winston-Salem; Mrs. Minnie Frazier of Emon; Houston J. Willard of High Point, and I. N. Willard, who lives near the home. Twenty-eight grand-children and 27 great grand-children also survive, together with one brother, John Willard, of Minnesota, and one sister, Mrs. Alice Myers, of Iowa.

Mr. Willard had spent his life on the farm and when able still worked there. He was a charter member of Deep Creek Baptist church and his name was among the first enrolled on its books in October, 1884, and for the past 45 years he had been a deacon in the church and served its interests well. The funeral was held from the home Friday afternoon at 4:30 and at Deep Creek at 5:00 o'clock. Rev. J. G. Allgood and Rev. T. A. Caudie had charge of the services. Interment followed in the church cemetery.

Fallbearers were the Board of Deacons of the church who had served with him, they being Sam Mitchell, Cyrus Todd, Sid Sherner, A. C. Steelman, J. F. Legans, C. R. Groce and Delmar Hoots.

Mrs. Etta Jayner, one of the above children, is in a critical condition at her home in Winston-Salem and has not been told of her father's death.

# YOU Be the Judge

Of Penney's Daring July Bargains!

FOR

## Surprise Value Days

FRIDAY, SATURDAY, JULY 26th-27th

Fast Color Nu-Tone Dress Prints  
New Patterns! 36 In.!
