Child Recovers After Being Bitten By Snake

Nellie Martin, 12, daughter of Tilden Martin, of North Elkin, has recently been released from Hugh Chatham Memorial hospital following treatment for the bite of a poisonous snake, it was learned from hospital attaches Wednesday morning.

The child was bitten July 12 and was given a serum to counteract the poison. However, reaction from the serum was not favorable and she was carried to the hospital two days later where she was again given serum which brought about her recovery. Although not known definitely, it is thought she was bitten by a copperhead.

Loot Valued At \$80 Is Taken From Store

Merchandise valued at approximately \$80.00 was taken from the general store of Mrs. Eva Mickel, west of the city limits some time after midnight Wednesday of last week. Entrance was gained to the building by drawing a staple from the rear door of the building.

The thieves took all of the sugar, tobacco, cigarettes, cigars and snuff, 14 pairs of overalls, several men's shirts, a quantity of bread, cheese, etc., and about 300 pennies which were left in the cash drawer. No arrests have been made.

TURNER'S STAGING ANNIVERSARY SALE

Is 12th Anniversary of Drug Store In Present Quarters

Turner Drug Co., of this city, is this week celebrating their 12th anniversary in their present quarters and at the same time are observing the 35th anniversary of Nyal products which have been featured by the store for the past 19 years. This celebration is in form of a timely sale of drugs and drug sundries, which, combined with surprise value days Friday and Saturday, creates an event of prime importance for those seeking real values.

Turner Drug Co. has been in business here since 1916 when W. D. Turner established the business. George Royall purchased an interest in the business 12 years ago when it was moved into its present quarters.

During its years of service to the people of this section, a large prescription business has been built up which recently necessitated the addition of another registered druggist, B. C. Brown.

In addition to their large prescription business, "Turner's" as the store is popularly called, has one of the most complete stocks of drugs and drug sundries that can be found in any town of this size.

Observing the 35th anniversary of Nyal products, this popular, time-tested line of drugs and drug sundries

have been handled by Turner's for 19 years, or since the birth of the business. The Nyal company is adding the store in presenting real savings during the anniversary sale.

In addition to these anniversary values, two surprise values will be featured for Friday and Saturday respectively.

(Due to an error the Turner Drug company ad in this issue states that it is the 15th anniversary of the store in present quarters instead of the 12th.)

CONTROL INSECTS TO PREVENT DAMAGE

Pests Usually Multiply Rapidly During July and August

Insect pests usually multiply rapidly during the months of July and August. If unchecked, they may spread rapidly and damage the crops seriously.

C. H. Brannon, extension entomologist at State College, urges all growers to keep a sharp lookout for insects during the summer and to start dusting or spraying when infestations are discovered.

Tobacco growers can control the horn worm by dusting with arsenate of lead or with the one-in-six flea beetle poison. The dusting should begin as soon as the worms are found in appreciable numbers, he stated.

Immediately after harvest, he continued, it is advisable to kill all the

tobacco stalks to prevent pests from feeding on them and entering the winter season in a flourishing condition.

Examine the cotton squares at least once a week, he said, and as soon as 10 per cent show signs of infestation with boll weevils, start dusting with calcium arsenate, or a mixture of equal parts of lime and calcium arsenate.

The hot, dry weather during June does not mean that boll weevils will be scarce this year, Brannon said, for damp, warm weather in July and August will cause the weevils to multiply almost without limit.

The Mexican bean beetle must be controlled if the late beans are to mature well and yield a good crop. Derris powder, which contains rotenone, is recommended. It gives excellent results in controlling the beetles and is not poisonous to human beings, Brannon pointed out.

CHEER EMPEROR

Addis Ababa, July 21.—Ethiopians gathered in cheering throngs today to give indorsement to Emperor Haile Selassie's determination to "defend to the last man" their territory from the Italian invasion.

The people, stirred to patriotic fervor Thursday by the emperor's speech to parliament, and further roused yesterday by harangues by tribal lords, assembled at mass meetings throughout the city.

The town of Fort Madison, Ia., has hired a Pied Piper. He is E. N. Averill, of Chicago, a professional rat catcher, who has contracted to drive all the rodents out of Fort Madison within six weeks.
