## MARTIN TALKS TO **ELKIN KIWANIANS** ON SCHOOL SYSTEM

### State's School Set - Up **Attracting Nation-**Wide Attention

#### HAVE CUT EXPENSE

LeRoy Martin, until recently secretary of the state board of equalization, but who recently resigned in order to take a position with the Wachovia Bank & Trust company, of Winston-Salem, was guest speak er at Friday's meeting of the Elkin Kiwanis club, held in the Kiwanis room at Hotel Elkin.

Mr. Martin, speaking on schools of the state, outlined the progress that has been made within the past several years under state control, and reviewed a portion of the history of the school system which led up to the present state maintained

He stated that in 1927, under the county school system, state schools had reached the point where something had to be done to improve the situation, and paid glowing tribute to John Folger, of Mount Airy, and others, for the lead they took in the general assembly of that year improve the situation. Their efforts, he said, finally led to the state taking over the school system and thus taking a great burden off some of the agricultural counties whose comparatively low tax income made it impossible to support schools on a par with the richer industrial counties

In this connection Mr. Martin pointed out that under the present set-up, some counties receive more money from the state for schools than they pay in. For instance, he pointed out. Stokes pays the state \$32,937 for educational purposes and receives \$107,604. Yadkin county pays \$24,566 and receives \$80,508. Surry pays \$217,000 \$208,000, he stated. receives Carolina's system
