HIGH POINT IS GRANTED RIGHT TO BUILD DAM

Federal Power Commission Grants License Saturday

MUST START BY JUNE 1

Washington, March 11.—Permission was granted the city of High Point, N. C., today to construct a 30,000 horsepower hydro-electric plant, by the Federal Power Commission. The order states that the license shall be issued as of January 1, 1939, for the construction, operation and maintenance of the project for a period of 50 years from the effective date. The authorization follows a hearing held on proposal before the full commission yesterday.

BEGIN WORK BEFORE JUNE

The order directs that the city of High Point shall commence construction of the project on or before June 1, 1939, and shall thereafter, in good faith and with due diligence prosecute such construction, and shall complete the project on or before June 1, 1942.

Also that the interests of interstate or foreign commerce will be affected by the proposed construction, and that no other application for this project or for any other project in conflict therewith is before the commission, adding that the project is desirable and justified in the public interest.

80 FEET HIGH

The project will consist of a dam approximately 80 feet high and 2,520 feet long; a reservoir having a surface area of approximately 14,600 acres in Yadkin, Davie, and Forsyth counties, North Carolina, and providing usable storage of approximately 231,000 acre-feet within a drawdown of 20 feet; a powerhouse having three installed units each of 10,000 horsepower and 70 feet of head; and appurtenant facilities, including transmission and distribution lines in Forsyth, Davidson, and Guilford counties.

High Point's application stated that the electric energy requirements of all domestic and commercial customers within the city are to be supplied by the development, as well as a portion of the industrial consumers now being served by a private power company.

Presbyterian Notes

The religion of Jesus Christ taught in our churches is the most vital factor for our concern today.

Values of life are changing so rapidly all around us it seems at times that this is all that is left that is worthy of our sacrifice.

We in America stand at the gate of opportunity if we are true to the trust which has been bestowed upon us.

If we fail in keeping this message which has brought liberty and freedom, we are failing in that which is vital to our Nation.

Individual interest, by participating in the programs of the churches, is the only way in which this, which is of so much value to us, can be kept.

In Europe today we see God and the church being crowded out of the life of Nationals. Instead of the church they have armaments, war, fear, and hate of neighbor and brother. These poor substitutes have brought misery and suffering untold. Our churches in America offer to us hope. Why not try going to your church next Sunday.

Some of our Sunday School teachers were kept at home Sunday because of illness. The attendance was larger than we have had for four Sundays.

Everyone enjoyed the new shrubbery they found planted at the church Sunday. This was started by friends who are neighbors of the church.

The Young People met in a pioneer meeting Sunday night with Wilton Money as leader.

The Stewardship meeting of the church was held last Sunday night at 7:30 p.m. with a large number present from the Yadkinville church. Everyone enjoyed and profited by the messages that were given by Mr. Wells and Mr. Taylor, officers of the First Church, Winston-Salem.

We give everyone a cordial invitation to attend our Sunday morning church school and church services.

Good Cry Helps
Mrs. Duff: "I always feel lots better after a good cry."

Mrs. Jawson: "So do I. It sort of gets things out of your system."

Mrs. Duff: "No, it doesn't get anything out of my system, but it does get things out of my husband."

Trombone Trick

The circus was visiting a town in the hills. The folk recognized all the instruments of the band except the slide trombone.

One old settler watched the player for quite some time, then, turning to his son, said:

"Don't let on that you're watching him. There's a trick to it; he ain't really swallerin' it."
