Yadkin Women Plan Home Demonstration Clubs Yadkin county women interested in home demonstration clubs had the opportunity to hear of the value of such organizations last week as Miss Sallie Brooks of the North Carolina Department of Agriculture met with the Yadkin homemakers on two successive days. The primary objective of Miss Brooks' meetings was to give housewives practical lessons in yeast bread baking through two complete demonstrations. Miss Brooks is assistant nutritionist of the Extension Department. She was particularly interested in showing how to use milk and eggs in the process, because these products are not found in the commercial commodity. In her demonstration she gave practical lessons in the making of Irish potato yeast, clover leaf rolls and cinnamon buns. The work of organizing home demonstration clubs in the county is under the direction of Miss Irene Brown, who was instrumental in getting Miss Brooks into the county for the two yeast bread demonstrations. Miss Brown expects to have the club organization work finished in the near future. Since coming here last spring she has done an excellent piece of organization work. Due to her efforts every school in the county has an active 4-H club. A few weeks ago the healthiest boy and girl in the county were selected. Later in the summer she plans to carry two members from every 4-H club in the county to Raleigh to attend the annual 4-H Short Course. There were 41 ladies present at the Boonville bread demonstration and a like number attended the other meeting which was held at Yadkinville. Both Miss Brown and Miss Brooks were highly pleased with the interest shown in the demonstrations and the club work in general. Those attending the Boonville meeting were Miss Merlie Speer, Miss Carolyn Riden, Miss Pauline Sizemore, Miss Dorothy Coram, Mesdames J. R. Walker, J. M. Speas, Thad M. Reece, Carl Bover, Paul Fleming, Ralph Reece, Miss Dorothy Fleming, Mrs. Adolphus Brendle, Mrs. John Brendle, Mrs. G. W. Sizemore, Mrs. C. W. Riden, Mrs. W. V. Shore, Miss Esther Brown, Mrs. Henry Fleming, Mrs. Olive Smith, Mrs. N. C. Dobbins, Miss Betty Hendricks, Miss Mary Speer, Mrs. J. L. Motsinger, Mrs. J. W. Shore, Mrs. Eldon Williams, Mrs. Delmar Mock, Mrs. A. B. Hobson, Miss Verdell Brendle, Mrs. Roy Reece, Mrs. J. J. Coram, Mrs. Grover Williams, Mrs. T. S. Meets with Mrs. Robert Transou The Boonville Y.W.A. organization met at its regular May meeting with Mrs. Robert Transou serving as hostess to the group. Mrs. Roy Reece was in charge of the month's program. The topic for the meeting was "If I Were Sick," and dealt with the great work that southern Baptists in foreign fields are doing in healing the sick and wounded, and how through the medium of healing they are able to win great numbers to Christ. The program opened with the song, "I Must Tell Jesus." This was followed by devotional by Mrs. Watt Deal. The three major topics discussed were "A Doctor," by Mrs. Arlie Steelman; "A Nurse," by Miss Katherine Jones; and "A Hospital," by Mrs. Thad M. Reece. In each of these topics the speaker brought out the most sought after things for a person who is suffering from some injury or ailment. In every case scripture was given to show how Christ himself was a great doctor, physically and spiritually. Mrs. Arlie Steelman in her discussion of "A Doctor," brought out the great weight that any Christian doctor can have over his patients in a religious sense, aside from giving them the desired treatment and cure. Miss Jones in talking on the topic, "A Nurse," gave many vivid accounts of the bravery and suffering of Christian nurses in the war torn provinces of China today. Likewise Mrs. Thad M. Reece told of the great beneficence of hospitals at various mission stations all over the world. The organization had as its special guest Mrs. John Zachary, of Hefford, N. C. Mrs. Zachary made a short talk before the group and gave several interesting topics on Y.W.A. methods and work in her church. After the regular topics had been discussed, Mrs. Roy Reece gave a brief summary of the number of hospitals, doctors and nurses kept in foreign fields by Southern Baptists. In giving her summary, Mrs. Reece asserted that never before in the history of China had there been a greater opportunity to witness there for Christ. She also emphasized the great part being played in missionary work in China today by doctors, nurses and hospitals. Following the program a short business session was held. A letter from Associational Superintendent Mrs. D. H. Craver was read, urging all members to attend the annual W.M.U. meeting to be held at Flat Rock Baptist church, June 1. It was decided that the Y.W.A. would have their special Heck Memorial program with the W.M.U.'s. The next regular meeting in June will be the first anniversary of the Y.W.A. At this meeting the group plans to invite the W. M. U. members to be their guests since the W.M.U. sponsored the Y.W.A. in its organization work.

LIVE TISSUES MADE VISIBLE

New Invention Shows Actual Functions as Viewed Under Microscope

IT MAY PROVE USEFUL St. Louis, May 19—A new invention which makes living tissues and their functions visible under the microscope was demonstrated today during the closing session of the American Medical association. The device, which is not patented and probably never will be, introduces cold light deep into parts of animals and enables medical scientists to study them as they function normally. The inventor, Dr. Malvin H. Knisely, of the University of Chicago, spent seven years in developing it. Until now it only has been possible to study the functions of microscopic cells by taking out a piece of tissue, staining it and placing it under a microscope. This old method showed cell changes as they were 20 minutes before. Dr. Knisely's method shows changes in the cells as they develop. The new combination of cold light and a microscope reveals the effects of such drugs as insulin, morphine, aspirin and other substances as they affect body cells. Blood can be seen as it flows in the tiny capillary veins and arteries through stomachs, lungs, hearts and other parts of frogs and the changes produced by such drugs can be seen directly. Its use in human beings is still to be determined but it may prove useful in the diagnosis of disease, Dr. Knisely said.

SURRY MAN KILLED IN MOTORCYCLE FALL

Mt. Airy, May 19—Russell E. Quesinberry, 34, filling station operator of near here, was killed this afternoon when he was said to have lost control of a borrowed motorcycle on the Fancy Gap highway, two miles from Mt. Airy. Quesinberry, who weighed 353 pounds, offered to let the motorcycle owner have one gallon of gasoline from his station if he would let him ride the machine up the highway. Albert Stanley, state highway patrolman, said from all evidence the man lost control of the machine, ran up a bank and plunged back into the highway, crushing his head on the pavement. He died while being carried to the Martin Memorial hospital.

SUGGESTS THAT FLEET BE SPLIT

Washington, May 21—An official strategist's proposal that the fleet's scouting force be reorganized and divided equally between the Pacific and Atlantic oceans

stirred the interest of navy high command officers today. Rear Admiral J. K. Taussig, naval district commander and former assistant chief of operations, advanced the proposal with the contention that the nation's sea forces at present were "illogically" distributed. "The Atlantic seaboard and our overseas possessions in the Atlantic are practically unguarded," he asserted in published proceedings of the United States Naval institute. CARD OF THANKS We wish to thank our many friends for the sympathy and kindness shown us at the sudden death of our mother and grandmother. We also want to thank them for the beautiful flowers. May God bless each and every one of you. MR. AND MRS. E. L. FORD AND FAMILY. 1tc
