## To Stage Special Demonstration of Sewing Machine

Announcement is being made in this issue of The Tribune of the appointment of the Hinshaw Cash Hardware company as dealers for the well known White sewing machine line. In an effort to give everyone an opportunity to see these new machines which are distinctly styled to fit into any room and blend with what-ever furniture scheme may be worked out, Leo Hinshaw, of Hinshaw Cash Hardware com-pany, has arranged to have Mr. and Mrs. Sam Cossin of the White company, present at the opening sale which is scheduled for Tuesday and Wednesday of next week.

Mr. and Mrs. Cossin come here direct from Houston, Texas, where they have been making special appearances for the White company. Both were stationed at the World's Fair in New York this past year and will probably be remembered by some of the local people who visited the White display there.

Both are accomplished demon-strators, and as well they enjoy factory training and experience. In many of their appearances they have been able to help peo-ple in general with sewing prob-lems.

Much can be said in connection with styling of the sewing ma-chine. The White company em-ploys the best designers available in the cabinet department at the plant and these new machines are as modern as it is possible to construct them. Of especial ap-peal is the new desk model which is being announced here Tuesday and Wednesday. When not used as a desk the top opens out to form a modern sewing machine. Souvenirs are being given away during the opening two days of the sale.

## TASK OF MOVING GOING FORWARD

Expect Entire Finishing Plant of Chatham Company to Be Here Soon

## BY MIDDLE OF MARCH

It has been estimated by Chatham Manufacturing Com-pany officials that the transfer of the Winston-Salem plant to Elk-in would be virtually complete by about the middle of March.

Much of the moving has al-ready been done, and four or five trucks are being kept busy haul-ing machinery to the new build-ings here.

The transfer is being made in units so as not to necessitate a complete closing down of any en-tire department, and workers are coming as the transfer of ma-chinery calls for them.

The company has already moved into the wet finishing building and a part of the cloth finishing department, while yet to come are the napping department, shipping and blanket finishing departments.

Although no estimate has been made as to the number of Win-ston-Salem plant workers who would eventually move to Elkin, many have already secured homes here. Others are commuting.
