with accessories of black. Her bouquet was of gardenias and valley lilies.

Radio Engineer Says:
"DODGE ENGINEERING SAVES MONEY IN MANY WAYS"

Geo. V. Sherman, of Station WBBM, Chicago, Tells Why He Bought Dodge

Geo. V. Sherman

"I HAVE to laugh when I hear people say that all cars are alike today," says Mr. Sherman. "As an engineer, I know this simply isn't true! Why, my Dodge has something that no other car can possibly match—and that is Dodge engineering. For years Dodge engineering has led the way in new ideas, new advancements—and Dodge owners have reaped the benefits in longer car life, big savings on gas and oil and the lower upkeep cost."

If you want to know what car gives you most for your money, here's a clue: 4,061 engineers bought Dodge cars in the last 12 months! Men who know a great car—mechanical engineers, civil engineers, automotive engineers—agree that Dodge engineering is matchless in the industry.

But in today's magnificent Dodge Luxury Liner you get

even more than great engineering. You get the most beautiful car Dodge ever built—bigger, wider, gorgeously styled interiors and more new ideas than in any other Dodge model!

Why not have your Dodge dealer demonstrate this magnificent new Dodge? You'll wonder how Dodge can sell such a big, luxurious car for just a few dollars more than small cars.
