

THIS AND THAT

It's getting about the time of the year to start looking at seed catalogs, but our experience in the past has taught us that looking is about as far as we should go. For every time our wife plants a seed it always comes up in somebody else's

Uncle Culpepper, always foot-loose, nearly sailed on the Titanic, and no doubt he would have gone down with the ship when she sank in the North Atlantic if something hadn't occurred at the last moment to prevent him from sailing. Aunt Frousy said he was one embarrassed man when they found him stowed away in a lifepoat just before sailing time.

A concert was in the offing. The mother of the boy with the clean ears was our pianist and instructor. And we practiced long and hard on a song, the first lines of which went like this:

'T saw a ship a-sailing A-sailing on the sea, And oh! It was all laden With pretty things for thee.'

Can't you imagine the agony that was for boys who were much more interested in damming the branch or digging a cave?

Well, to make a long story short, the concert was given, it went off okey, even our quartette oming in for some applause. But then, because the commun ity singers had exhausted their hometown audience of white people, they arranged to present it in the local colored Methodist church for the colored people!

Can you imagine anything more cruel? Both to the colored people and to us? Can't you just ee us and the boy with the clean ears and the preacher's sons standing up there before an audence of natural born singers, "little ship quavering about a upon the sea?"

But what we remember best was the way the boy with the clean ears took it in stride. He seemed to be a natural born

Important for Women

A weak, run-down condition often

gives a foothold to functional

dysmenorrhea, causing much peri-

odical distress from headaches, nervousness, cramp-like pain for women. CARDUI so often helps in

such cases, for it sharpens appe-tite, boosts flow of gastric juices;

so improves digestion, helps build physical resistance. CARDUI, tak-en a few days before and during

"the time," is another way to help periodic distress. Used 50 years.
