

COMMITTEE HAS FIRST MEETING

Planning and Advisory Group Was Organized First of This Year

J. W. COMER PRESIDES

Monday night, March 4, at Dobson, the Planning and Advisory Committee for the Professional and Service Division of WPA held its first regular quarterly meeting of the year. The organization was set up around the first of the year for the purpose of working with the Professional and Service Division in the planning, promotion, and better interpretation of a program of projects for this division to better meet the needs of each individual community.

The committee is made up of representative citizens from each community in Surry county. The meeting was presided over by John Comer, chairman. A brief report and displays of the activities of each type project now being operated was given by the county project supervisors, and questions from committee members on any phase of the work. It was felt that a general understanding of the activities being carried on was needed and the committee undertook as its first big activity a better interpretation of the work of this division.

Rural Families Get Medical Aid Under Program

Rural families in Surry and Yadkin counties who had received loans from the local Farm Security Administration office are participants in the recently established medical care program for low-income farm families, according to Linda L. Bailey, Farm Security Administration home supervisor.

Miss Bailey stated that these loans administered in the same manner as those for fertilizer, seed, stock and home needs will average about \$15.00 yearly per family. This medical service went into effect on the first of February, it was reported.

The medical care program which was endorsed by the Surry and Yadkin Medical Society at its September meeting has shown considerable interest, and final plans were made to get the work underway at a recent meeting of the advisory committee and FSA officials.

According to the arrangements of the program, each family will have the privilege of choosing any physician who is a member of the Medical Society. The bills will be paid each month by the trustee. The Advisory Committee appointed by the Medical Society will determine the fairness of the bills.

The Advisory Committee consists of Dr. Henry Allen Brandon, Yadkinville, Dr. Hugh Parks, of Elkin, and Dr. R. E. Smith, of Mt. Airy.

Mr. Herman Coe, assistant cashier of Surry County Loan and Trust Company, is the trustee for the Medical Care program.
