## Women get "Build-up"

A good way to relieve periodic discomfort from functional dysmenorrhea due to malnutrition, such as headaches, nervousness, cramp-like pain, many women find is by using CARDUI. It usually sharpens appetite, increases flow of gastric juices, and so aids digestion, helps build resistance to periodic distress. Another way CARDUI may help you: Take it a few days before and during "the time." CARDUI has been popular for 50 years.
