## Do It Electrically

"I Give You More Time To Enjoy The Youngsters"

"Mothers of today are not spending all their precious hours in hot kitchens over steaming stoves, or back-breaking slavery over wash tubs and heavy irons, thanks to my services. I have brought emancipation to the mother and given her glorious moments with the youngsters for recreation and play. No longer is she wrinkled and worn-out while she is yet a young woman but she keeps her charm and beauty.

"The most interesting part is that I work for so little. I do all the various tasks of drudgery and work in your home for a few pennies a day. As a matter of fact the average cost in the average American home today is less than 9 cents a day. Now, don't you agree that this is an insignificant sum?"
