

Registrants of Area Will Find Names And Number In This List

ENTIRE LIST PUBLISHED

Total of 2,362 Men Under Jurisdiction of Local Draft Board

LIST POSTED AT DOBSON

In order that the registrants of Surry county under the jurisdiction of the draft board covering this area, which includes all townships with the exception of Mount Airy, Stewarts Creek and Long Hill, may learn their serial numbers, The Tribune is printing herewith the complete list of names and the numbers assigned to them.

A total of 2,362 names appear on this list, and as they are not listed alphabetically, each registrant will have to search through the entire list to find his number. Although every effort has been made to avoid error in setting the names and numbers, due to the fact that the list of names, as provided by the draft board, was a carbon copy and therefore rather hard to read in places, some errors may have been made.

Each of the numbers included in this list were in the fish bowl at Washington Tuesday when the drawing of numbers began. The order number of each registrant depends upon the order in which his name was drawn from the bowl, and will determine the order in which he will be called up for service.

A similar list of names and numbers is posted at the courthouse at Dobson.
