DR. JAMESON IS GUILTY.

The Transyaal Raider and His Aids Sent to Prison-

PUT IN CONVICT GARB AT ONCE.

The Leader Sentenced to a Lecin of Fif

teen Months' Imprisonment-Five of His Fellow-Freebooters Also Convicted or Violating the Foreign Enlistment

Act and Receive Lighter Sentences. Loxpon, England, July 29.-Dr. Leander L. Jameson, Major Sir John Willoughby Major Raleigh Grey, Colonel H. F. White Major R. White and the Hon. Henry P. Cov. entry, charged with violating the Foreign Entistment Act by their part in the Transvani raid of last December, were convicted yesterday. Dr. Jameson was sentenced to fifteen months' imprisonment, Major Willoughby and Colonel White to ten and seven and the othersto three months each, without

The trial was concluded in the Higa Court of Justice before Lord Chief Justice Russell, Baron Pollock and Mr. Justice Hawkins, The defendants were charged with violating the Foreign Enlistment Act of 1870 in that they took part in an armed expedition against a State with which Great Britain was at peace. Counsel for the defence and the prosecution submitted their cases and Lord Chief Justice Russell summed up the case. At that time the court room was crowded, interest in the case reviving as it drew to a close. Among those present were many well-known society women.

In summing up Lord Russell emphasized the importance of the trial. He said that the crime with which the defendants was charged might cantall consequences which nobody could foresee. Continuing the Lord Chief Justice said that if such things as the defendant one charged with had been done by the theen's authority they would have amounted to an act of war. Done by the Queen's subjects, without her authority, they amounted to an illegal filibustering raid.

Lord Russell concluded his summing up at The trial was concluded in the High Court

Lord Russell concluded his summing up at 4.29 o'clock and the case was then given to the jury, who at once retired to consider their verdict. All the defendants were

found guilty.

The Court sentenced Dr. Jameson to fif-teen months' imprisonment. MajorSir John Willoughby was sentenced to ten months, Colonel H. F. White to seven months, and prisonment each. None of the prisoners will be compelled to do hard labor during

A large crowd had gathered outside the A large crowd had gathered outside the courtroom to await the axit of the prisoners, and cheered vociferously when they made their appearance. Many shouts of "God bless you" were heard as the prisoners were brought out on their way to Hollaway Jail, where they are to be confined temporarily. Jameson and his fellow-prisoners were placed in cells in the Holloway Jail, where they were dressed in the garb of ordinary convicts and received the common prison fare. Their treatment will differ in no way from that of other prisoners unless their appeal for first-class treatment be granted.

The Jameson trial was a "trial at bar," a form of criminal inquiry which differs from any other in British jurisprudence. It must take place before a jury and more than one judge, generally three. Another difference is that the proceedings "at bar are not final, and a rehearing may be applied for, and held, by reason of evidence improperly admitted or rejected, or because the verdict is against the weight of it, or on account of some informality or incorrectness in the proceedings. The sentonces are extremely light, considering the gravity of the offence, but are probably severe enough to satisfy the exact demands of justice. A marked change of sentiment has taken place in the six months since the facts of the Jasseson raid became known, and there are very few now who do not believe that the raiders really deserve to be made an there are very few now who do not believe that the raiders really deserve to be made an example of. The incursion into the Transvael was perpetrated at the very end of the last year, between Christmas, 1895, and New Year's Day, 1994, and the new year dawned on the defeat of the raiders, after the failure of the Uitlanders in Johannesberg to rise and flock to their assistance. The story of the prisoners since that has been anything but cheerful, and the fitting result of their error has been reached.

HORRIBLE DEATH FOR TWO.

Drunken Man Pulls a Fireman From His Cab and Both Are Killed.

Micky Higgins, a pugilist, twenty-five years old, and Nathan B. Lowe, a fireman on switch engine of the Boston and Maine Railroad, were both run over by the Railroad, were both run over by the engine in the freight yard at Lyan, Mass. Higgins was under the influence of liquor and walking upon the track. As the engine neared him he stepped to one side, and then caught at the handle bar near the cab, as if to swing on. The fireman put out his hand to ward Higgins off, when the pugilist caught the hand and pulled the fireman from the cab. They fell in such a way across the rail that the engine passed over, both men.

Ah accident resulting in the loss of fifty lives, occurred on the railway between Bombay, India, and Delhi. The train was run-ning at good speed, when it was thrown from the rails and a number of the coaches wreaked. Most of the killed were natives.

Part of the town of Hifracombe, Devos shire, England, one of the fashionable an most attractive seaside resorts in Europe, was burned. There were many visitors in the town and there was much excitement, it being feared at one time that the whole town would be destroyed. Bo far as known no-body was hurt. The loss is \$400,000.

Baltimore is the only club in the Leagu that carries a salaried mascot.

Ehret, of the Cincinnatis, at present leads the pitchers of the National League. The cry, "Wait till next year!" is begin-ning to be sounded all along the lines. The New Yorks gave in exchange for Beck-ley Outfielder Harry Davis and a cash con-

It looks now as if there might be more Western clubs in the first division than East-ern at the wind up.

Hoy, of Cincinnati, is in the leaf with twenty-one sacrifice hits, and stands a good show of beating Jennings s recordlast year of

The Cincinnatis are alone in the League in not having sustained a shut out this season. They have administered the dose to a majority of their competitors, however.

Young, of Cleveland, made the pitchers' record of the season in the game with Philadelphia, by allowing only one hit in the contest. Delehanty was the man who got the hit.

The New Yorks have secured four new players. They are Warner, the Louisville catcher; Pitcher Reidy and Outfielder Ulrich, of a minor league, and Beckley, the Pittsburg first baseman.

Wilson, of the Cleveland team, was re-leased by the Boston management as ineffi-cient, but all the same he won thirteen of the first sixteen games he has pitched in for Cleveland this season.

Terry, the Chicago pitcher, has faith in the firing process for a lame arm. He cites the case of Rudderham, the pitcher of the Providence team, the muscles of whose pitching arm were fired by a Providence surgeon. Captain Anson, of Chicago, uses a heavy hickory bat, the only one of the kind in the League. It cannot be broken except under a rock crusher and nobody will steal it be-cause not shother man in the League can

Precident Robinson, of the Cleveland Club, advocates low admission to games—twenty-five and fifty cents—and claims that the regular attendance with such prices would at least equal the crowds now attraced by Saturday games.

It is said old John G. Clarkson, who, with Kelly, formed the great \$20,000 battery that Chicago sold to Boston, has conceived the idea of re-entering the baseball field as a pitcher. Since he quit the game he has had prosperous eigar business in Bay City,

The Cincinnatis won nineteen of twentyone games with Eastern clubs. Of the seven
clubs, Boston, Philadelphia, New York,
Washington, Brocklyn, Baitimore and Cleveland, Baltimore alone won a game from
them. Their lead was then considered dangerously near to a winning one.

Jennings, of Baltimore, is the best batting infielder in the League and is also ranked as the best shortstop. He stands third among the shortstops in fielding, but covers more ground than any of them. He is the best base-running shortstop in the League. Jennings is one of the really great ball players of the times.

What a great boost sacrifice-hitting has received this season. Cincinnati leads the League in this respect, and also leads in the number of games won. Baitimore and Cleveland are close up in the sacrifice business, and they, too, are fighting for the lead in the pennant race. What an example this is for teams to learn the art of going out to advance a runner! Ewing hammered this idea into the Cincinnati players, and their winnings have been the sensation of the season.

A Terrific Cloudburst in the Wilds of West Virginia.

The news of a cloudburst and by far the ost destructive which has occurred in West Virginia has just been received. This time seens of destruction was in Calhoun he seene of destruction was in Calhoun County, in the central part of the State. In the territory bordering on Steer, Yellow and Straight Creeks. The elements broke loose with terrific force, flooding the entire county with a deluge of water ien feet deep. The three creeks swelled to enormous proportions, and hardly a building of any kind remains to mark the course of the atreams. Three fatalities are reported. Mrs. Wooffler and her daughter and Sarah Stephens in their efforts to save their household effects were carried away in their own homes and drowned.

were carried away in their own homes and drowned.
On Yellow Creek four houses and a saw-mill were carried the entire course of the stream. Several booms containing thousends of logs were forced from their moorings. There is not even a fence to be seen to mark off the division of the farm lands.
The scene of this disaster is in the wilds of West Virginia, where there are neither fole-graphic communication nor raticoals. A poor class of farmers make up the population, and to-day they are without a single possession. All the crops were destroyed, leaving them without means of food. Unless assistance can be sent to them, starvation will follow. Farmers who were in good circumstances are penniless. To estimate the loss is impossible. This is the fifth cloud-burst occuring in West Virginia during the last month, each one being worse than the former. Entire reconstruction was necessary on the Baltimore and Ohio for a distance of fifty miles.
