### Perfect Stock at Ingletare.

Dr. E. G. Hargette, Assistant State Veterinarian, has been at Ingletare farm the last few days treating and minimizing the herd of 35 Duroc Jersey blood sows. While there he also tested the dairy herd for tuberculosis and found them perfectly free from disease of any kind. Dr. Hargette says this is one of the finest herds he has only tested one other herd in the State that was perfectly free. Dr. Hargette took a number of photographs of the herd of Duroc hogs. He says this is one of the finest bunch of hogs he ever saw. Two cars of stock have been shipped this season from Ingletare farms and there are something like 150 head of hogs now fattening to be shipped later in the spring.

### NEIGHBORLY ADVICE

**Freely Given by a Greenville Citizen.**  
When one has suffered tortures from a bad back and found relief from the aches and pains, that person's advice is of untold value to friends and neighbors. The following neighborly advice comes from a Greenville resident.

Mrs. J. C. Savage, 112 Eleventh st., Greenville, says: "About a year ago I was bothered with my kidneys. I had a dull pain in my back and could not rest well at night. In the morning I was sore and stiff. Dizzy spells were frequent and when I stooped and then try to straighten, my head swam, making me blind for a few minutes. The secretions for my kidneys were too frequent and annoyed me considerably. Doan's Kidney Pills, which I procured from Bryan's Drug Store gave me much relief. After using four boxes, my kidneys and bladder were fixed up in good shape and the soreness across my loins was relieved."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Savage had. Foster-Milburn, Co., Props., Buffalo, N. Y.

### Only Advantage of a Recorder's Court Would Be In Cases Where Defendant is Unable to Have Counsel.

The following is an extract from the Grand Jury's report and contains their recommendations regarding the establishment of a Recorder's Court for Pitt county.

Whereas, there is considerable agitation in the county at the present time as to whether or not there shall be established a Recorder's Court, we the Grand Jury serving at the January Term, 1915, after mature deliberation upon the consideration of the question of whether or not a Recorder's Court will be a benefit to the county and save the county any expenses are firmly convinced and are of the opinion that a Recorder's Court will increase the expense of trying criminal cases to the county, for the reason that Pitt County now has four criminal terms, of one week each, which in our opinion are all sufficient to take care of the criminal business of the county.

That as the Grand Jury is advised the establishment of a Recorder's Court will require a salary of not less than twelve to fifteen hundred dollars to the Recorder, together with a Solicitor at a salary of from six hundred to one thousand dollars.

That our experience leads us to believe that the only possible benefit that the Recorder's Court could have would be to dispose of immediately those few cases wherein the defendants are unable to give bond or to employ counsel, and that in all other cases where defendants would be able to give bond or secure counsel it would simply burden the county with the expense of maintaining an intermediate court between the court of the Justice of the Peace and the Superior Court and that the burden of maintaining this court and the expense thereof would be greatly in excess and greatly outweigh the benefit that might possibly be derived in the manner above indicated.

That your Grand Jury further believes that it would be impossible to secure a presiding officer at the small salary of fifteen hundred dollars, which the position of Recorder would carry with it, who would possess that judicial temperament so necessary to the success of the court and the safeguarding of the rights of the individual and of the county, and under all the circumstances, and for the reasons appearing above, we earnestly recommend that there shall be no Recorder's Court established for Pitt county, and respectfully ask that the court order a copy of that part of our report bearing upon the question of the Recorder's Court to be submitted to the Members of the General Assembly from Pitt.

### Mrs. Deanie Brown Dead.

Mrs. Deanie Brown, wife of the late Mr. C. O. Brown, who died about two and a half years ago, died Thursday morning at about 4 a. m. at her home on South Pitt st., of pneumonia after an illness of only nine days. Mrs. Brown was 54 years of age.

Of her immediate family there are surviving three children, Mrs. Clarence Lafter of Durham, Miss Maggie Brown and Mr. C. Oscar Brown Jr., of Greenville. Mrs. Brown also leaves one sister, Mrs. Bethe Mc Gowan, and two brothers Messrs. J. R. Tucker and W. E. Tucker all of Greenville, her stepmother, Mrs. W. W. Tucker of Grimesland and uncle and aunt, Mr. J. E. S. Adams and Miss Mary Adams who were living with her at the time of her death.

Mrs. Brown was a member of the Methodist church and was a good christian woman, ever ready to help those who were in distress. Her host of friends will learn of her death with great sorrow.

Funeral services were held Friday morning at the house at 11 o'clock the burial followed in Cherry Hill Cemetery.

### VERY SAD DEATH OF POPULAR PERSON.

Last night at ten o'clock Old Henry was felled to death by Three Feathers, the Upper Ten attended the funeral in a body, which was held at the Old Log Cabin, placing a beautiful wreath of Four Roses on the grave. The services were conducted by Rev. C. L. Overholt, and the interment at Mount Vernon. The pall bearers were selected from the Canadian Club of which he was an honorary member. The remains arrived on Atlantic Coast Line 85. Mr. Cascade to Green River made a few appropriate remarks at the grave. The deceased leaves a wife and six children besides a great number of friends to mourn their loss, prominent among them being Paul Jones of Kentucky Glade, who is well and favorably known in Greenville.

Old Henry was at one time proprietor of the Monticello, but owing to his health being impaired, by Mountain Dew he sought other climates, hoping with the aid of Duffy's Malt to eventually recover, but the end was not unexpected as old Baker had cautioned his wife to be prepared for the worst. The Jefferson Club sent a wreath of immortelles from their Private Stock.

Mr. Sherwood of Woodbrook after the services returned home on Rooney's Special, stopping overnight at Kentucky Tavern, where he was introduced to Old Taylor, president of the Jockey Club. The entire city mourns the loss of Old Henry who was so well known here having visited a majority of our citizens during the holidays and making such warm friends with whomsoever he came in contact.

The estate will be administered by Old Harvester, who is of the Green of Kentucky. Thus passes another of our old landmarks, so easily to go but never to be forgotten.—Exchange

## BETTER HEALTH METHODS HAVE ADDED TO LIFE

### Common Drinking Cup Must be Abolished to Improve Health Conditions

### HELPS SPREAD MANY DISEASES

#### Science Has Show How Disease May Be Prevented And There Remains Nothing to Do But To Follow Directions.

Paper read before the End of the century Club at a recent meeting in which important health matters are discussed.

"The service which has been rendered the human race, by the public health movement for the last half century is the noblest example afforded by human history of successful philanthropic, human activity. In the last fifty years the average length of life has been increased seven years.

That public sanitation has within the same length of time added not less than four billion years to human life is an undisputed fact.

And in abolishing the common drinking cup which has for so many years been a public menace, it has done much to establish an individual fight against the spreading of all communicable diseases, such as small pox, measles, typhoid, scarlet fever, diphtheria, syphilis, tuberculosis. The last two of which there is most to be said, as syphilis is considered one of the worst plagues of mankind.

Once acquired, it cannot be cured by the most rigid treatment under two or three years, and it is then liable to break out afresh at any time without the most constant vigilance; every organ and tissue of the body may be affected by it.

It is the only known chronic disease which children may inherit and be affected with at birth. The death rate of infants suffering from hereditary syphilis is from sixty to eighty-five per cent and the small number who live either die young or grow up weaklings, diseased in both body and mind.

Authorities also say it is the direct cause of many cases of insanity. A person suffering from it may transmit it to the innocent by the use of the same drinking vessel as the secretions of the mouth are the most infectious.

Last but not least, tuberculosis which is the most wide spread, as well as most dreaded of all infectious diseases, as it is responsible for ten per cent of the deaths from any cause in the United States and a third of the deaths from all causes, between the ages of fifteen and sixty of life, is due to tuberculosis.

The infection is chiefly from man to man (though of course there are many ways by which it may be spread).

It is due to a specific germ which thrives best in the sputum, consequently using the same drinking cup is one of the surest ways of infection.

As scientists say if every patient suffering from tuberculosis would properly dispose of his sputum, we could get rid of consumption in the next generation.

Science has made known the means of preventing these diseases; it is ready to apply them—for the preventable diseases are born of ignorance of communities as well as individual ignorance.

When we abolish the common drinking cup in our community, as well as the common communion cup in our churches, we have done much to apply the means science has made known.

With this knowledge of the dangers by which we are surrounded to neglect any possible ways of preventing and minimizing such dangers is criminal and the use of the common drinking cup must be stopped.

## THE GRAND JURY URGES CLEAN COURT HOUSE

### Commends Judge and Solicitor for Work They Have Done This Term

### NUMBER OF CASES FINISHED

#### Gamblers Given Heavy Road Sentences, Pies Green Gets 12 Months in Jail or Assault, One Case Ends In Mistrial.

The Grand Jury in their report last week in addition to the recommendation on the Recorder's Court sent in one or two other recommendations which will be of interest to the public.

They recommended that the Court House be kept cleaner than it has been kept in the past saying that several of the rooms are not kept as they should be and that others need attention.

Judge Whedbee was commended for the able manner in which he has been presiding at this term of court. Solicitor Abernethy was also commended for the way in which he is handling the cases for the State.

The jury reported that they had visited the County Home and found it in good condition with the exception of one room which needed attention and repairs.

The cases disposed of since our last report include the following:

T. G. Hamilton, assault with deadly weapon, guilty, judgment suspended upon payment of costs.

### WHOLE FAMILY WIPED OUT.

#### Father Kills Wife, Three Daughters and Self.

Luther, Pa., Jan. 24—H. H. Woods, a telegraph operator of Harmony Junction Butler County, today shot and killed his wife and their three children and then committed suicide.

All the victims were shot in the forehead. The bodies were found by E. L. Underbrand, who lives on the floor below that occupied by the Woods and who investigated when the family failed to attend church. Underbrand says he heard some noise in their apartment early today but paid no attention to it.

Woods, who was 38 years old, was a railroad employe. His victims were his wife, Alice, 32, and three daughters, Fay, 15, Rosemary, 6 and Margorie, 2.
